Hello dear reader, how are you ?

Thank you for buying one of my books.

My name is Jasmin Hajro,
I was born on July 6, 1985 in Bosnia.
As refugees, we came to the Netherlands 21 years ago.
After having completed school & worked at several jobs ...

On 17 December 2012, I founded my first company:
investment firm Jasko. After a successful first year,
I unfortunately had to close that company.

After a short period of rest, unemployment and temporary work.

I started again as an entrepreneur.

On September 1, 2015, I founded establishment Hajro.

(We say establishment instead of company,
because we do a bit more than just sell stuff.
Like providing jobs,
donating to 40 different charities,
and helping people to live richer.)

Since the beginning the core activity is,
selling sets of greeting cards,
door to door.
Nowadays the product range has been expanded.

With, among other things, the selling of my 23 books.

The royalties of my books are donated to the charity:
foundation Giveth Life.
From there more than 40 other charities
receive donations.
And by buying this book, so do you.
Thank you.

My company is now part of Hajro Group,
which consists of 19 different subsidiaries,
that are part of 1 umbrella organization.
Called Energy Now (Energie Nu)

For more information about my company
& the foundation, go to www.hajrobv.nl
or at www.hajro-global.webnode.nl

How this book came into existence

In 2007 I started working at a restaurant,

as a dishwasher. I lived with my mother and had no living expenses. I earned about 1000,- euro per month. So I had enough money in savings. At my work I learned to work in the kitchen & worked my way up. Then I learned that my saving were not actually growing with the interest, because inflation was as high as my interest.

I did a home course called Wiser with money.

Then home course Stock exchanges and investing.

I read books on finance.

Somewhere I learned that for retirement :

If you live in a foreign country for a couple of years or are an immigrant

When you retire, you will get a pension cut.

Because you don't have a complete employment history of 47 years.

This meant that my parents were screwed, when they retire.

(Because they are immigrants,

and will only have worked in the Netherlands
for about 20 years.)

How would they survive with a half pension ?

When they're old and can't work anymore,
and when they should be enjoying life.

Then I decided to become rich.

I had to, so I can give them a decent
pension.

So I went on with educating myself on
finance.

Read more book on finance.

Started investing,
in mutual funds, bonds, stocks.

Made some profit & also lost some money.

No problem, I was learning.

But I was exhausting myself,
because I also worked fulltime in the
kitchen.

So I started looking for a better way,
that would cost me less time & energy.

And thru thinking about how to do it better.

I came up with a system.

When I started a company to invest

professionally for clients,

I applied for a patent.

To protect my financial system.

(It's kind out outside the intention of this book. But
If you want to know what happened. My company Jasko had
1600,- euro in the portfolio. If I made a 20% return on
that, I could pay the promised return
to my clients, which I did, and buy a present for
myself.

But it was not enough to make a living.
And then I also had no clue about selling,
which is required to get new clients.

And I had to close the company.
Which hurted, because it was my baby.
But I have the experience.)

Now I have received the patent

for my invention

the financial system.

You can see it at the next page.

Well...

I gave you my bio,
so that you know me a little better.

I have told you how & why
this book came into existence.

And now is the time for you to read
the book.

Remember that I write Doing books,
which means that I describe actions that you
can take and from them get results.

Don't worry, it doesn't take a lot of your
time. And I have kept it simple.

The good news

Money keeps flowing into your life.
Money continues to flow.
Money keeps circulating.
Money has done this for hundreds of years.
Money will continue to do this for hundreds of years.

Since you first received pocket money,
since you were paid for your first job.
Since your studentloan money began to come in,
since your job started paying your monthly salary.
Since your business became profitable.

Money kept flowing into your life every month.

Even to people with social welfare.
Thank God.
Fortunately money keeps coming in regularly.

There is enough money in the world.
Should it be necessary, than more money will be made.

the Pay Yourself First rule

It means that when you receive your money,
you first pay yourself.
For example by saving 10% of it.

To clarify the result,
we will make an example calculation.

For example, you earn 3000 dollars per month.
And you pay yourself first,
in other words: you save 10% of your income.
That is 300, - dollar per month.

A year has 12 months,
So after 1 year you have

$(12 \times 300) = 3600$, - dollar.

After 1 year you have saved a whole month's salary.

If you save 10% every month,
how much will you have after 10 years?

$(3600 \times 10) = 36000$ dollar.

So after 10 years you'll have 36000 dollars
or a whole year's salary in your savingsaccount.

Later on in this book,
you'll see how to make that money that you save every
month.

Grow faster.

10% of everything

It is important that when you first pay yourself,
by saving 10%.

That you save 10% of everything.

Of course 10% of your income.

But also 10% of the tip if you get it,
also 10% of your allowances,
also 10% of your gift money,
also 10% of your 13th month,
also 10% of your bonus,
also 10% of your wage increase,
also 10% of your tax refund,

also 10% of your welcome premium.

From which angle or from whom you receive money,
the first thing you do is pay yourself first.

By saving 10% of it.

the secret of success

The secret of success is Persistence.

If it takes 20 years,
for you to become a millionaire.
If that means that it requires of you
20 years,
of working and saving & investing.
Then you have to Persist 20 years with
working and saving & investing.

And not quitting after 5 years

PERSIST until you reach your goal.

—
—
—
—
—
—
—
—

The 2nd secret of success is:

WHAT YOU DO WITH YOUR TIME

So do not go watch TV for hours,

but start earning money

&

deal with people who earn a lot of money.

So that you learn from them to earn even more money.

That money will start to work hard for you,

according to this system,

that you are learning.

The person who will make you rich,
the one who will build your Fortune,
is YOU.

Therefore, take good care of yourself.

So you can keep on persisting
for a long time,
until you reach your goal.

Trend

Because people live longer nowadays,
they need money for a longer period of time.

Many people build up income for later,
with dividend paying &
interest-bearing investments.

This will increase the value of those kind of
investments,
over time.

The part of your money
that you are going to invest,
will grow because of this trend.

Bonds explained

If you buy a bond,
you actually lend money to a company or government.
You get interest for this,
which is paid to you annually.

A bond usually costs around a thousand dollar.
Some bonds have a certain duration,
for example 10 years.
If this bond gives 5% interest,
with a duration time of 10 years.
And you buy this bond.

Then you get the upcoming 10 years,
50 dollar in interest each year.
After that 10 years, you get your deposit,
that thousand dollar back.

Some bonds have no duration in years mentioned.
There is a P mentioned, the abbreviation for Perpetual,
which means eternal.

These perpetual bonds pay interest annually, for
eternity.
As long as the organization that issues them still
exists.
That can be hundreds of years.

You buy a bond once,
and get 50 dollar in interest each year,
for the next 50 years or longer.
Without having to do anything else for it!

That's better, is it not?

Preparation

Before you start building your own Fortune,
we must do the preparation first.
The preparation consists of 3 things.

1. Have your will prepared by a notary.

This is not fun, but important.
So that when you're gone,
there are no ambiguities or misunderstandings.
About what you leave behind and to whom.

2. Make sure you are well insured.

Get the insurances that you need,

and think that you will need.
Such as a term life insurance policy and
a funeral insurance.

So that when you're gone,
your surviving relatives do not get stuck with those
costs.

And still have to arrange things.

But that everything is already well arranged.

Try to get all your insurance policies from 1 or 2
providers, so that you get a discount on your insurance
package.

1. 1. 1. 1. 1. 1.

3. Open the following 3
accounts:

1 A savings account,
2 a deposit account,
3 an investment account.

(Note : with deposit account is meant a banking account
on which you can fix an savings amount of money,
for 1 to 20 years.

Which pays you interest annually,
and gives back your savings amount,
after the duration period ends,
which you pick. If you want your savings amount back
before duration ends,
you get a fine.)

Systematically building it up

You will systematically on these 3 accounts,
build your Own Fortune.
With the amount of your income,
that you save every month.

If you, like in our previous example,
save per month 300 dollar.

Then you divide that 300 dollar,
about your 3 bankingaccounts.

- 1/3 Saving, so you put 100 dollar in your savings
account.
- 1/3 Deposit, so you put 100 dollar in your deposit
account.

1/3 Investing, so you put 100 dollar in your investment account.

Half of your investment account money, you invest in a dividend yielding mutual fund.

And the other half you invest in an interest yielding bonds mutual fund.

For example :

50 dollar in the NN Utilities Fund Dis
50 dollar in the Triodos Sustainable Bond Fund

You can leave it that way, all year round.
Without having to worry about it.

After that year, you will receive interest from your savings account.

And interest from your deposit account.
And dividend & interest from your investment account.

This money works for you now.
That's how you let it grow.
You also get over the years,
the interest on interest effect.
Which makes it grow faster.

Every month

Next month you pay yourself first,
by saving 10% of your income.

This amount of 300 dollar you divide again over your 3
bankingaccounts.

1/3 Saving, so 100 dollar into your savings account.

1/3 Deposit, so 100 dollar into your deposit account.

1/3 Investing, so 100 dollar into your investment
account.

Half of your investment account money,
you invest in a dividend yielding real estate mutual
fund.

The other half you invest in an interest yielding bonds mutual fund.

For example :

50 dollar in the BNP High Income Property Fund
50 dollar in the NN Global Bond Fund

In total you have:

200 dollar in your Savings account.
200 dollar in your Deposit account.
200 dollar in your investment account
The money in your investment account is
equally divided over 4 mutual funds.

This means for you,
that you receive annual interest on your savings
account.
And that you receive annual interest on your deposit
account.
And that your receive annual dividend &
interest on your investment account.

Every year.

The next month you do the same 3 steps again

Step 1: You save 10% of your income.

Step 2: That 10%, in our example that 300 dollar, you divide over your 3 accounts.

A third into your savings account.

A third into your deposit account.

And a third into your investment account.

Step 3: The amount that goes into your investment account,

you divide in two.

One half you invest in a dividend

yielding mutual fund
or
a dividend yielding real estate mutual fund.
The other half you invest in an interest yielding bonds
mutual fund.

The next month you do the same 3 steps again.

Then you do the same 3 steps each month.

Why not put everything in your investing account?

It is very important that you,
stick to the described dividing.
With this dividing you only risk
a third of your money.

But by having that part that you risk,
spread well.
You reduce the risk.

Mutual funds are already spread in themselves.
A mutual fund is invested in 50, 100 or more companies.

Which reduces your risk dramatically.

The amount with which you pay yourself first every
month,

that 10% that you save.

Always divide it into your 3 accounts as below:

1/3 of that 10% in savings account
1/3 of that 10% in deposit account
1/3 of that 10% in investing account

It is wise to also, divide your investments in mutual
funds

by category,
as below :

1/3 stocks mutual funds
1/3 bonds mutual funds
1/3 real estate mutual funds

Choose mutual funds that pay you dividends or interest.

It depends

It could be,
that your savings account pays the interest per month.
Or per year.
That differs per bank and savings account.

It could be that your mutual funds
pay out the dividend per quarter.
Or per year.
That differs per mutual fund.

If you open a deposit account at Rabobank,
the so-called Target Savings.
Then you can decide for yourself,
how often you put money into it,
and how much.
That is a very convenient deposit account.

It may be that other banks,
request a minimum deposit for a
deposit account.
For example 500 dollar.

If the bank where you open your deposit account,
requires a minimum deposit .
Then you can save that up monthly,
until you have enough to meet the minimum requirement
and put it in a deposit. For several years.

In our example,
you have after 5 months (5 x 100) =
500 dollar,
saved up.
You then meet the minimum requirement for a
depositaccount.
And you can put 500 dollar in your depositaccount,
fixed for 10 years or more.

After 1 year

After 1 year you saved in total
3600 dollar.
(12 months x 300 = 3600 dollar)

You have done the 3 steps on a monthly basis.

Now you have:

1/3 of 3600 is 1200 dollar and that is in your savings
account.

1/3 of 3600 is 1200 dollar and that is in your deposit
account.

1/3 of 3600 is 1200 dollar and that is in your
investment account.

You have spread your investments in mutual funds per
category,

So :

1/3 of 1200 is 400 dollar and that is in stocks mutual
funds.

1/3 of 1200 is 400 dollar euro and that is in bond
mutual funds.

1/3 of 1200 is 400 dollar and that is in real estate
mutual funds.

You have invested in mutual funds that
pay out dividend and
interest, to you.

So you receive interest and dividend on your investment
account.

You will receive interest on your deposit account.
And you also receive interest on your savings account.

Step 4 and 5

Step 4: If you have 1200 dollar in mutual funds, you sell 1100 of it.

In our example, you have invested 1200 dollar every year in mutual funds.

So every year you sell 1100 dollar from your mutual funds.

So that you have 1100 dollar in cash, on your investment account.

Step 5: With that 1100 dollar cash on your investment account, you buy 1 individual bond.

A bond that pays a high interest rate to you, and has a long duration time.

Or a perpetual bond that pays a high interest to you.

**Note : It is forbidden for you to buy junk bonds !
Corporate and government bonds are allowed.**

Na 10 jaar

If you do the described steps,
every month and every year.
The next 10 years.

Then you will have :

$1200 \times 10 \text{ years} = 12000 \text{ dollar}$ on your savings account.
 $1200 \times 10 \text{ years} = 12000 \text{ dollar}$ on your deposit account.
 $1200 \times 10 \text{ years} = 12000 \text{ dollar}$ on your investing
account.

Every time you had 1200 dollar
in mutual funds,
you sold 1100 dollars of it.
And from that cash you bought 1 bond.
So after 10 years you have 10 bonds.

If you have bought perpetual bonds,
that pay 10% interest per year,
You receive $(10 \times 100) = 1000 \text{ dollar}$ in interest
annually.

Well then you can buy 2 bonds per year.
From what you save and divide into your
investingaccount
& from the interest payout from your bonds.

This will result in increasing your total annual
receivable returns.

Increasingly bigger annual returns for you

In the course of time, your total returns annually,
increase by the interest & dividend that you receive.
This allows you to buy more and more bonds per year.

And thus, your total annual returns
become even bigger.

For example after many years:

You have 10 perpetual bonds that pay 10% interest
annually,
you receive 1000 dollar per year in interest.
And you have 100 bonds that have a duration time of 20
years,
which payout 8% interest.
You then receive 8000 dollar per year in interest.

Plus the interest that you receive on your savings
account
& plus the interest that you receive on your deposit
account.

In total, your annual returns are more than ten thousand
dollars.

And with that you can buy more individual bonds,
so that your total annual returns
become even bigger.

**In this way,
the system is reinforcing itself,
to yield bigger annual returns for you,
every year,
for the rest of your life.**

What now & how do you proceed ?

If you understand this book,
and you understand all the steps
that you have to do.
If you are going to do everything yourself,
then that's fine.

Get started.

Start building your Fortune.

If you think you can use some help,
you can ask that someone.
You can ask your adviser at the bank.
Or you find an independent consultant.
Then you can together
Build your Fortune.

Put this book in a place,
so that you see it every day.
So that it reminds you of your goal:

Building your own Fortune.

And so it reminds you of the steps you have to do every
month & every year.

Thank you for buying this book

&

good luck with
Building Your Fortune.

P.S. I recommend that you reread this book
every month. To stay focused.

If you like this book and get good value
from it,
please be so kind to recommend it
to the people that you know.

Or sent a copy or 2 as a gift.

So that it helps them to
improve their lives also.

Thank you.

on which you Must spend your time on, everyday.**

**Which 2 are they?
Watch TV and be on Facebook?**

**Without BULLSHIT, so:
SALES & DIRECT MARKETING**

**If you sell something (sales),
then profits comes into your business.**

**If you become good at (direct marketing),
then profits comes into your business.**

**With marketing you save yourself time while selling.
You do not have to explain who
you are and what your company does.**

How many hours per working day do you spend on sales?

How many hours per working day do You spend on Direct Marketing?

**WHAT HAPPENS IF YOU ONLY SPEND YOUR TIME ON SALES &
DIRECT MARKETING ??**

**Will you have more profits
and therefore more money?**

**Sales & marketing are core of every business.
If you set everything aside and
just spend your workingdays on sales & marketing
You'll do good.**

Moneymaker 3.

**the bible for entrepreneurs, written by an entrepreneur.
So it's your daily reading.**

**No, it's not about GOD.
It says, written by an entrepreneur**
**YOU READ ONLY BOOKS WHICH ARE WRITTEN BY PEOPLE
WHO OWN A COMPANY !!
Do you understand ?**

**This way you prevent feeding your mind with BULLSHIT.
And prevent yourself from modelling BULLSHIT.
So you save yourself time and money.**

**Ok then, now a bit about that Entrepreneurial Bible.
It is called No Excuses, the Power of self discipline
And is written by Brian Tracy
And yes, he has his own company.
Otherwise his name would not be here.**

**It comes down to self discipline.
And self discipline makes you feel very good
about yourself.
If you are going to exercise, for example, while most people are
watching TV.
If you to work on a Saturday,**

**while most people
have weekend.
If you take a step towards achieving your goals on Sunday.
The above 3 examples,
require discipline from you.**

**But 1, 3, 5 years from now where will you wind up?
And where will most people wind up?**

**Have you ever worked a day with pain because your teeth were broken?
Have you ever worked with only 2 hours of sleep, the night before?**

Have you ever worked without having slept the night before?

**It was probably easier to watch TV then
But then I would be a Bullshitter for you, and not someone who you respect.**

**Oh yeah, buy the entrepreneurial bible.
NOW.**

Moneymaker 4.

Build your Fortune, and still have enough time for yourself, your family and your company.

**I'm not going to tell you this is the only way,
nor that it is the best way in the world.
I'm just telling you it's a way that works,
and with which you put money to work for you.**

Because it takes little time, it is ideal.

**So you'll still have plenty of time for yourself.
for your family. And of course enough time
for your company.**

Moneymaker 5.

Orient yourself globally

Why would you have a region oriented company?
Like there is only a market for you in your city or state?

And like there are no prospects in other cities and states?
Who also spend money.

Think Global

The whole world is full of people who have money and spend money.

So you are going to orient yourself Globally.

Oh yeah, in those other places
they also have email and mailboxes.

So with this we give birth to
(Your Company) GLOBAL

What did Donald Trump say?

If you're gonna do some thinking. Think BIG

Moneymaker 6.

Save time with groceries.

You know and have been through it:
making a shopping list,
going to the store,
searching for everything on your list and
putting it in your shopping Cart,
standing in line at the cash register,
waiting,
putting everything from the shoppingcart into your car,
driving home,
putting everything in the right spot.

Doing shopping every week.
Is a total of 8 hours that you spend per month.
Recognizable ? Of course, everyone does.

How do I say this neatly to you?
You're wasting your time, einstein.

From now on, you order your groceries.
When the Groceriestruck arrives at your door,
you feel rich and smart.

The 8 hours that you have saved,

you now spend on making profits.

Moneymaker 7.

the Top 20%

Some of them have purchased a set of greeting cards from me.

They live in those big, beautiful houses.

And often they have their own company.

You can read more about them in your entrepreneurial Bible.

Make sure that you get into that top group.

**By becoming the best
in what you do.**

Moneymaker 8.

You & Direct mail

**Do you want to reach everyone?
Everyone has a mailbox.
So become very good at copywriting (selling in writing)
Learn and practice writing good sales letters.**

Many people don't want to receive offers in the mail.

**But you also deliver your sales letters to them,
because it is IMPORTANT that they know who you are,
what your company does. And that you REALLY exist.**

**After you have been sued,
then you can exclude them from your delivery list.
Only then.**

**Your mail is also Measurable,
you send out 100 letters, 20 people go to your website,
1 buys. That is measurable.**

**(Or you can have 1 million likes &
1 million engaged on social media.
Which is not measurable and brings you 0 dollar,
so it only costst you time)**

Money maker 9.

Fund yourself & save money on your taxes

**Go to a notary,
and make your company a Private Limited Company.
Then you pay less tax.
And you can sell shares, to fund yourself.**

**If you already have a Private Limited Company,
also go to the notary
to establish a foundation.
A foundation for your family,
to build a fortune in it.
Without having to pay taxes,
on that fortune.**

**Your foundation can also contribute to a better world,
in a way that you choose.**

Moneymaker 10.

Connect your company to your community

When I buy from company A, I get a product and a receipt.

When I buy from company B, I get the same product and I support 20 charities.

Where would you buy?

**Support with 10% of your profits, the local charities and
good causes.**

For your PR or for your soul.

**(So that the people who work for those charities,
Become your customer.**

Or so that you just feel great about yourself.

Or for both)

Moneymaker 11.

Your communication

Stick to mail & email.

**Everyone has a letterbox &
almost everyone has an email address**

**Social media platforms can
lose their popularity.
Like Hyves did.**

**Give people in your mail and email marketing
a reason to go to your website.
For example by giving away an ebook for free.**

Repetition is the name of the game.

**So you must Repeat at least every month
your mail & email marketing.**

Moneymaker 12.

your blank book, the seminar

**Why would you pay 20 dollar for an empty book?
Because you are going to put some great ideas in it.
Do you know that 1 good idea can make you rich?**

**Buy an empty book. A journal
Then go to Youtube and listen to:
How to use a journal
from Jim Rohn.**

**To learn how to use your blank book,
and more information about your benefits
from using it.**

(Yes, he also has his own company, which still exists after his death)

MoneyMaker 13.

how to use Social media correctly

Social media is a waste of time

You can only use it as Leadgenerating Pages.

**So on your facebook or linkedin you write :
A brief bio about you, a brief bio about your business,
the what you & your business can do for the visitor/prospect
and
a link to your website.**

**Just that,
after that you do not have to spend time on your social media
platforms anymore.
Never again.**

**Find me on LinkedIn, and you see an example
of the text that you will put on your social media.**

**If you're smart, you can spend your saved time
meaningfully
on those 2 things that will give you money.**

Do you remember which 2 ???

SALES & MARKETING, Einstein

MoneyMaker 14.

Your email on autopilot

**If I receive a short email from you every week,
which states: hey, how is it?
How was your week ?
Have a nice weekend.
Greetings, You**

**There is a chance that after a certain period of time,
I will be open to buy something from you.**

**You know email marketing, look for a provider,
for example Mailchimp, set it up for the whole year.**

**And keep in touch with your potential customers.
Build stronger relationships &
send them offers.
On autopilot.
Without having to spend time on it.**

MoneyMaker 15.

SEO is Not for you

Why not ?

**If your website is: www.yourcompany.com
And someone opens his browser, and types into the
address bar
www.yourcompany.com**

Then he comes to your website, right?

**If someone goes to google.com and in Google types :
www.yourcompany.com , then he finds in
the search results a link to your website, right?**

**How did you want to measure SEO?
With a straightedge ?**

**When you become a medium-sized or large company,
with a large budget.
Go big,
with seo and other similar things.**

But not now.

**And you would spend your time on 2 other things, right?
Sales & marketing, remember?**

Are the Moneymakers valuable to you ?

Are you going to have more money and more free time?

Are you already implementing ????

**If you are not serious about doing these things,
how will you make more money &
have more free time ?**

Bonus Moneymaker 16.

Gratitude.

Be grateful for what you already have.

**Thank your customers &
thank the people who do something for you.**

**Also thank the people
who are always there for you.**

Bonus Moneymaker 17.

Write your book or booklet.

**And position yourself as an expert.
If you know more about a subject than I do,
then you are an expert to me,
regarding that subject.**

**So write about what you are good at,
or what you know a lot about.**

**Describe your experiences as a salesperson,
or as an entrepreneur.**

Describe your life lessons.

**Then you publish your book,
via barnes&noble press & lulu.com &
createspace.com & kobo.com**

**Your book will then be available for sale in various
bookstores in several countries.
Including Amazon.com & barnes&noble**

**Your book becomes a marketing tool for you,
and for your company.**

**Mention in it or on your book, your web address or
that of your company.**

**Make yourself a familiar person.
People prefer to buy from a celebrity /
well-known person.**

**That's why you see celebrities and wellknown people
in advertisements,
praising products.**

If you want to very easily create & publish your first book....

**Then put all the texts on your website,
in a pdf.**

**Write and add some things, like your flyer and blogarticles.
And your first book is ready
to be published.**

**The advantage of this is that you have copyright
on the texts on your website and your other writings.
And,
you have went through the process of creating &
publishing a book already once.**

So you can now more easily create your 2nd book .

Bonus Moneymaker 18.

Become really good at selling.

**Read books about selling and
Go out selling door to door.**

Become a master.

**It does not matter that it takes years,
for you
to become an expert salesperson or
to achieve mastery at selling.**

**If you become a 1000 times better at selling.
Then you will also earn a 1000 times better.**

**(What if you eventually build a team of 1000
salespeople and earn on every sale they make ?)**

Thank you for reading these Moneymakers.

**I know you will benefit from them,
if you implement them.**

**I wish you a lot more money &
a lot more free time.**

God bless you,

P.S. Money is just paper, ink and metals.

**P.P.S. Success in business can only be measured with dollars.
Have you sold things and earned 2000 dollar this month,
then you're having a successful month. And you are successful.**

**P.P.P.S Hopefully money and success are no longer
mysterious to you.**

**By buying this book,
you made a donation to
foundation Giveth Life
&
40 other charities.**

Book The Recipe for Happiness

A book has been written about a true story ...
About a man who was imprisoned in a
concentration camp at the time of Hitler,
and happy.

So, Happiness has nothing to do with your circumstances.
It has everything to do with,
your choice to be happy,
regardless of circumstances.

Choose to be happy.

Of course there are tougher times in life,
like when someone you love, dies.
That's part of life.
Those times of grief you just have to go through and process.

Processing is best done by talking about it,
to get it off your chest regularly.

Or by writing about it,
if you write down a situation or your feelings about it,
then it's on paper,
and it is less in your head.

Writing is a good outlet.

Processing is also done well by: staying busy.
Whether that is in your work or your hobby.
They say: a rolling stone does not collect moss.
So stay busy

Okay, now you have learned a good lesson about how to better process negative life
experiences.

But you're here for the Recipe for Happiness, right?

Well, the lesson you've learned will help

to make the recipe work better for you.

Here it comes then ...

You have probably read a local newspaper,
and you regularly check the news.
(the daily news on television)

Have you noticed that about 99% of it is bad news?
Only misery ..
If you did not know better,
you would think that the whole world is going to perish.

If it's a habit for you,
to watch the news every day for half an hour ...

Have you ever wondered if it's healthy for you?
Does it make you happy ?
Of course not !

The easiest way to change a habit is by replacing it
with a new habit.

So from today on, instead of watching the worldly news half an hour a day

Watch COMEDY for half an hour a day.

Mandatory.

Every day.

Well, now at half past eight in the evening it's not news time, but Comedy time.

If you watch comedy, you relax & you laugh.
Sounds healthier, doesn't it?

Well, laughing every day is easy to do, right?

And replacing your old bad habit in this way,
with a nice, healthy new habit,
is probably easier than you thought.

Except for the fact that relaxation is good for you,
when you laugh, also your body makes endorphins.
Those are natural happiness substances.

Well, after 21 days of daily watching comedy,
you will have formed a new habit.

So watch Comedy every day.

You can watch a lot of standup comedy on Youtube for free.

Simple?

Sure,

but you have to do it,
every day,

until you don't have to think about it anymore,
and you start doing it automatically.

Some Happiness Ingredients in a row:

- Watch comedy every day, at least one hour.
- Eat ice cream, treat someone with an ice cream.
- Work out, throw out your frustration by playing tennis or go for a run.
- Pee in the yard (and if you get a fine for urinating, laugh your ass off)
- Do not worry, life is too short for that (by staying busy, you do not have time to worry)
- Hug the people that you love
- Go enjoy a cup of coffee or tea
- Buy or save a cat or some other pet
- When you receive money, immediately save a part of it
- Don't let the media scare you, the world is not getting worse, the world is getting better.
- Sex, need I say more
(when you have sex your body also produces endorphins = those natural happiness substances)

Maybe the Recipe for Happiness
is different than you had expected....
But that doesn't matter,
the point is that it works &
that it will help you to live happier.

Do it,
it is easier
then looking with a sour face.

If you liked this book & got some value from it.
Would you then be so kind,
please,
to recommend it
to the people that you know.
So that they too can enjoy it
and live happier.
Thank you very much.

It was my pleasure to write and translate
this book (my third one) for you.
I hope it helps you to live happier.
(I know it will, if you do the things it teaches)

And I hope, that we can together make a contribution
to more happiness in the world.

We can.

If you recommend this book and share it.

Then I will promote it.

And together we will make a contribution to
a happier world.

I would appreciate it if you would write a short review.

Thank you for your effort.
Kind regards,
Jasmin Hajro

The lifebuoy for banks: " loyal banking "

_ You know the news reports about the disappearance
of jobs at the banks
through technology.

If it's hundreds of lost jobs within 2 years,
how many lost jobs will it be within 10 years?

And will there be 50 years from now,
except for an ICT department that keeps an eye on
whether the computers and machines do their job well,
still bank advisors with whom we have human contact?

There are 2 negative developments in the banking industry:

1. Job loss through technology (internet banking)
2. Savings interest rates are reduced if the banks profits decline.

So set your convention aside
(it takes time and money to develop a program for expansion and job retention)

Because

Will there be 50 years from now,
except for an ICT department that keeps an eye on
whether the computers and machines do their job well
at your bank,
still bank advisors with whom your customers have human contact?

The solution : " loyal banking "

Why should you do loyal banking?

For those with managerial functions, the answer is:
for more profit.

For the employees the answer is:
to be able to continue working at the bank until retirement.

Why will Loyal Banking become a success?

1. 1. 1. 1. 1. 1. Everyone wants to be rich
1. 1. 1. 1. 2. Personal contact is irreplaceable
(bank advisor-customer contact)
3. What makes your work fun,
except earning money,
is the contact with people.

Example calculation:

1 hour " extra work " per month x 1000 customers = 1000 extra working hours per month for the bank.

1 hour " extra work " per month x 2500 inhabitants = 2500 extra working hours per month for the bank.

(Residents are people who live in the place where the bank is located)

2500 hours: 160 hours (full-time) = 16.25 fulltime jobs saved or created.

1 hour " extra work " x 5000 customers = 5000 extra working hours per month for the bank

those 5000 hours: 160 hours (full-time) = 32.5 full-time jobs

32.5 full-time jobs x 100 bank branches = 3250 full-time jobs

So with 1 hour of extra work,
with 1 hour of loyal banking per month,
for 5000 customers,
in 100 bank branches

You keep 3250 full-timers.
Or you create 3250 full-time jobs, so 3250 new full-time jobs.

If you had to delete 2000 jobs in the next 2 years
Now with Loyal banking you can keep those 2000 people,
Plus
employ another 1250 new people.

How do you get to those "extra work hours" ??

By 'Loyal banking' for 1 hour per customer per month
you come to those extra working hours
and the realization of the preceding example calculation.

With this the 2 negative developments in the banking system,
are transformed into a process of expansion.

In your own distinctive way you can design this 'process'

This process, the " loyal banking " means:
1 hour per month per customer, 20 to 30 years of interaction,
in which the book, the system and the described steps,
are learned and done together, with the bankadvisor and customer.

Since in that 20 to 30 years the needs of the customer will change,
you can make a longer than 30 year process out of it.

Paint the picture (for the customer):

If you save 10% of your income, every month, how much do you have after 10
years?

A full year salary. (That will be a nice year)

Rule of paying yourself first,
living of 90% of the income becomes habitual.
More peace of mind and a better life.

There is almost no job security,
but there is something better after a certain period of time
(20 to 30 years),
carefree living,
regardless of the labor market.
Because you've Built Your Fortune.

The content of the program: " loyal banking "

In the vernacular: your own fortune

Reads:

- Income: even someone with unemployment benefits can start saving 5 dollars per week.
- Ideas to increase income: for example doing chores or starting a webshop etc
With some help ,

even someone with unemployment benefits
can start his own business.

- Systematically building it up,
for example, save 50 dollars every month in a savings account
put 50 dollars in a fixed savings account every month
invest 50 dollars every month
put 50 dollars in your pension account each month

- Insurance package:
put all the different insurance policies a customer needs
in a package, at a cheaper rate.

- Customer-specific Financial Plan: made by customer and bank advisor together.

- Notebook: because the bank advisor has a golden tip every month
for the customer to write down in the booklet.

- Savings: save 10% of gift money, wage increase, tax refunds
etcetera.

- CheckUp: sit at the table every month or every quarter with the bank advisor to view and discuss whether everything goes according to Plan. If necessary, make changes or improvements & reward the customer for progress.
- Through the CheckUp, the bank advisor is also an accountability partner for the customer, and increases the chance of achieving his financial goals.
- Rewarding progress: Yearly one certificate for the participating customer.
- Quarterly : a report of the past quarter + a customer-specific present.
- Monthly : one stamp on customer's stamp card, after 1 year and a full stamp card the customer has won a prize.
- Making a will : not fun, but important
- (This offers the bank the possibility to work together with a notary's office, which entails cross-promotion and more such benefits.)

- In the case of a Very Old customer:
make it clear that this is the most valuable gift,
what they can give their children / grandchildren.

- In the case of a Very Young customer:
make it clear that Saving money is cool
(every child wants to be cool)
Including a youth account and bank own welcoming gift.

Playfully: to the new / young generation
(your customers of the upcoming decades)
playfully teach them this Build Your Own Fortune program.
Make it simple and without difficult words.

First acquaintance with " loyal banking " for your customers:
Through the described paint the picture, arouse interest
and give explanations about actionsteps and the process.

Then: lay the foundation; through opening the necessary accounts
and handing over their starter kit.

Obviously make an appointment for the next month.

Starter kit " Your Fortune " or
starter kit " Build your fortune " contains :

book Build your fortune, written by Jasmin Hajro
a notebook and pen with bank logo on it.

The starter kit and contents of the program / process
can possibly be further extended by the bank.

You have now read The Life Buoy for the banks
or 'Loyal Banking' '

The solution for your bank.

Good luck.

To use the system described
and steps in the book How to build your own fortune with simple steps (1st edition)
or book Build your Fortune (3rd edition)
& develop a suitable program for your bank,
with which you retain many jobs and create new ones
Which helps you to serve your customers much better
and makes your profits grow...

" By the way, I started my first company in 2012.

I have made more than 700 sales since

1 September 2015 so far.

So I have a track record
in sales and business,
and I know what I'm talking about. "

"" As you have probably already understood,
I earn my money by selling for my own company.
That's my work.

The proceeds from my books go to charity.

I write from experience,
I write to help people move forward
in their lives and business "

book The Ultimate Winning Strategy for entrepreneurs

How do we measure success in business?
With monetary points, with earned euro's or dollars.

What is a successful business?

Successful entrepreneurship =
selling a lot

We are therefore successfully running our business,
if we sell a lot.

So success in doing business = selling a lot
(many sales realized / many sales closed)

Because sales means profits.

So what is the Ultimate Winning Strategy in business?

First we start with the concept,
then you get 2 examples from real life

Have you noticed that supermarkets are open 7 days a week?

Supermarkets may be a less good example,
because we just have to eat and drink.

Have you been to the Esso gas station?

(Part of Exxon mobil corporation)

The Esso gas station has a shop with staff,
and is open 24 hours a day, 7 days a week.

And no, even if it seems that we need petrol,
the Esso could also have become a self-service gas station,
where you fill your tank and pay with a creditcard.

But the Esso has a shop with staff, 24/7 .

What do the supermarkets do every day?

They make sales and profits.

Every day !

What does the Esso do every day and night?

The Esso makes sales day and night,
every day.

So the Esso makes profits,
every day and night of the year

The supermarkets and the Esso are successful
because they realize sales every day
and thus make profits every day.

The Ultimate Winning Strategy for entrepreneurs
is
making profits every day.

Make a profit every day of the year.

You do that by selling every day,
and by daily closing sales.

Your advantage over your competition

If you sell every day & make profits every day,
do you than have an advantage over companies
who only make profits 5 days a week?

-
-
-
-
-
-
-
-
-
-

Example 1 from real life

I have been selling from Monday, September 18, 2017
untill Wednesday, September 27, 2017,
10 days in a row,
and made 22 sales in total.

So every day I made sales & I made profits everyday.

That is the Ultimate Winning Strategy for entrepreneurs in action.
(in the real life of running your business)

Well if we are honest,
then we know that the transaction value
of sets of greeting cards is modest.
And therefore the profit per sale is also.

But do not be turned off by those numbers ...

You will soon receive a real life example from someone who made 1 million.

This was to make you understand the successful Concept
of the Ultimate Winning Strategy for entrepreneurs
and that you see proven that it works.

You now understand that Concept,
you have seen some examples of companies
applying the Ultimate Winning Strategy.
You have seen a real life example
from me I have proven to you that it works.

And you are 100% assured that the Ultimate Winning Strategy works.

People do not need greeting cards
like they need food and drinks,
but they bought every day
and I made profits every day.

So it does not matter what kind of product or service you sell.

The Ultimate Winning Strategy also works for you.

Next step

You understand the Ultimate Winning Strategy for entrepreneurs,
and you know it works.

So now you are going to do it.

You are going to implement it.

I'm not asking you to work 7 days a week,
although you should do it once.
(That will boost your confidence)

You can sell from Monday to Friday &
hire someone who sells for you
from Saturday to Monday (a part-timer)

Then you will already have
sales every day and profits every day.

If I can do it alone,
then you can certainly do it with 2 people!

Are there any other ways how you can
make sales everyday & profits ever day?

Consider, think and find 20 ways,
with which you can make sales everyday

and therefore make profits everyday.

Write them down.

- 1 Hire a salesperson
- 2 Create a team of salespeople

Example 2 from real life

Go to www.youtube.nl
and watch the video of Walter Bergeron,
GKIC marketer of the year.

The video lasts about half an hour.

Pay close attention when he says: that means also on Saturdays and Sundays.

(that he was selling 7 days a week and
making profits every day)

Have you seen
what the Ultimate Winning Strategy for entrepreneurs
can do for you?

Go to work,
go out selling every day & making profits every day.

Apply your 20 ways,
give your sales a boost,
make lots of profits.
Every day of the year.

I wish you a lot of succes.

P.S. If you have liked this book and got good value from it,
than would you be so kind
to recommend it to people that you know.
So that it also helps them forward.
Thank you.

Jasmin Hajro

Hello dear reader,
how are you ?

Thank you for buying booklet Recipe for Happiness.

My name is Jasmin Hajro, I was born on July 6, 1985 in Bosnia.

As refugees, we came to the Netherlands 21 years ago.

After having completed school & worked at several jobs ...

On 17 December 2012, I founded my first company: investment firm Jasko.

After a successful first year, I unfortunately had to close that company.

After a short period of rest, unemployment and temporary work.

I started again as an entrepreneur.

On September 1, 2015, I founded establishment Hajro.

(We say establishment instead of company,
because we do a bit more then just sell stuff.

Like providing jobs,
donating to 40 different charities,
and helping people to live richer.)

Since the beginning the core activity is,
selling sets of greeting cards, door to door.
Nowadays the product range has been expanded.

With, among other things, the selling of my 10 books.

The royalties of my books are donated
to the charity: foundation Giveth Life.

My company is now part of Hajro Group,
which consists of 20 different subsidiaries,
that are part of 1 umbrella organization.

For more information about my company &
the foundation, go to www.hajrobv.nl or

my Poems

I WISH I WAS A BIRD

If only I was a bird, wild and free
Unfortunately, I am a human being, locked up in the Leij

If only I were a bird, I would fly to wherever I wanted
But I am locked up, it is lonely and quiet

If only I were a bird I would never have worried
Then there was no difference between today and tomorrow

If only I were a bird I would not suffer from war and grief
And I was not tempted by alcohol and weed

Freedom is the most important thing there is
I am locked up and that is what I miss the most

MASK

Many of us wear a mask
I wonder why people are afraid
to show themselves
Why is his person concealed?

How can we ever be satisfied with our lives
if we are not satisfied with ourselves

We prefer material things
above knowledge of our true personality

Why are we afraid of what lies in us
how long do we need
to become aware of what we can achieve as unity

We will probably have to fall into the deepest valley
before we are ready to accept ourselves
and accept each other

We fear the unknown
so also ourselves

Ignorance drives us to fear

We want to improve the world
make it a better place

Why do not we improve ourselves
the rest would follow automatically

What do we have to lose
except our prejudices
The power would be lost
what many do not want to accept
so we keep on tinkering

And many of us keep their masks on
not aware of it
that they become one with their mask
and lose themselves

We all want freedom
but the fear stops us
If a disabled person can live without legs
why a healthy one can not do without fear

SUNSHINE

The rain comes out of the air with bins
the anger in my heart starts to pop

I see how the weather changes face
it is as if the whole world is crying at the same time

I am sad to see this
am I so bad that I do not deserve happiness ?

The sun is shining again but not for me
I do not like it, it does not make me happy

When will the black clouds before you disappear
and you will shine again for me ?

I worked in a restaurant
Landal in Doetinchem.
I started as a dishwasher in 2007,
and worked myself up to cook.

I fell in love with Anne van de Riet,
Straw the waitress.
(her last name means straw,
so in my messages I kept on calling her straw)

The following are some jokes
and poems for Straw (Rietje),
my great love...

(when I translate it literally,
it's not that funny in English.

I'm sorry for that.

But some things just sound better and are funny in english
and some sound better and are funny in dutch)

Dear Anne

You can see the humor in it , can't you?
Before I really get to the Straw (Rietje) with you

Happy Saturday,
Greetings
Jasmin Hajro
I like you

Straw...

What's in a name?
That what we call a straw,
would with any other name
be just as nice

How about a Cup of tea than ?

Although I have drunk hundreds of them ...

It be my very first with a straw.

My father is also so proud of me ..

Dad Hajro: You forget which day it is

But you do not forget to Straw

(to send Anne a message)

Dad Hajro proudly tells everyone he knows,
how far his son has made it ...

How far?

To a straw

That is jogging in a winter sweater
while it's 30 degrees Celsius ,
to pant as if he is being killed,
laughing and doing ...

All people are looking ..

What does he have?

(what's wrong with him)

A straw

Is it a bird ?

Is it a plane ?

It's a Straw

You don't stop, do you ?

Son of a Straw...

Jesus..

That address of yours ...

It is like looking for a straw in a haystack.

Father van de Riet, in a threatening tone:

If you do not stop with that

Then I'll have you shot

Jasmin: Have me shot ??

With what ?

With a straw . ?..

Uuh.I'm shaking like a straw

Straw.....shaken, not stirred....

Kind regards, Jasmin Bond

Joe Girard : I like you
I love you
If you need a Straw, you better call me

Greetings,
Jasmin Hajro

MISSING : Jasmin Hajro, 30 years old, from Doetinchem

Last seen witha Straw...

Straw.....Straw.....

Where art thou.....o.....Straw....

Dear Mr & Mrs van de Riet.
We would like to inform you with sincere condolences
Jasmin got unwell,
the ambulance drove him to the hospital.
And now he is with GOD.

Yours sincerely,
family Halilovic & Hajro

Cause of death: overdose of Straw

In a Chinese restaurant:
... .. Would you like a straw to go with that

And if Jasmin gets beaten and ends up in the hospital?

Then he'll have to eat thru a Straw

Jasmin, do you have a sign before your head?

No, a straw

Anne: Why do you send me something in the middle of the night?

Jasmin: I can't sleep, I can't sleep normal for the last 5 or 6 years,
not that that comes partly because of you.

You make my heart sing.

Good morning straw,
here you can mail your address to:
j.hajro@hotmail.com

Then you will receive The Card

If you just don't start calling me Mientje
(that would ryme with Rietje (straw))

Judging by your reaction
you are as stubborn as I am

The stubborn greetings,
Jasmin Hajro

Maybe you think: it's good that you know something
to say...
after 5 or 6 years

Maybe you think: I'm really going to kill you ...

However you do ...

I like you

When are we going for a jog?

See if you'll lose against a jogging chain smoker ...

So if I want to drink coffee with you ,.
then I have to make things so bad,
that you come to kill me?

And then convince you not to do it

Play?

Did I send you more messages than I would?

Quote:

Rule of success # 2

Break the rules

(not the law)
but break some rules

-Arnold Schwarzenegger-

How do I say something that you have heard more often probably,
but in a way that you have not heard yet?

"If God is an artist,
then you are his most beautiful creation"

With love,
Jasmin Hajro

Do I have to ask myself with every joke I send ,
whether you'll come to kill me?
Or do you think they're a little funny?

Well, you're certainly not saying anything,
so I'll have to sleep with one eye open ...

As far as the rest is concerned: a joke or 2 per week ...

Have fun playing this game, called life
Forgive me as I dream on
And do not forget to smile
May it rain a 1000 joys upon you

Quote:

Give a 1000 joys

Thank you for reading,
I hope you liked them.

Well as a bonus you will receive a book,
the Recipe for Happiness

read more on the next page

The Recipe for Happiness

A book has been written about a true story ...
About a man who was imprisoned in a concentration camp
at the time of Hitler,
and happy.

So,
Happiness has nothing to do with your circumstances.

It has everything to do with,
your choice to be happy,
regardless of circumstances.

Choose to be happy.

Of course there are tougher times in life,
like when someone you love,
dies.

That's part of life.
Those times of grief you just have to go through and process.

Processing is best done by talking about it,
to get it off your chest regularly.

Or by writing about it,

if you write down a situation or your feelings about it,
then it's on paper,
and it is less in your head.
Writing is a good outlet.

Processing is also done well by:
staying busy.
Whether that is in your work or your hobby.
They say: a rolling stone does not collect moss.

So stay busy

Okay, now you have learned a good lesson about how to
better process negative life experiences.

But you're here for the Recipe for Happiness, right?

Well, the lesson you've learned will help to
make the recipe work better for you.

Here it comes then ...

You have probably read a local newspaper,
and you regularly check the news.

(the daily news on television)

Have you noticed that about 99% of it is bad news?

Only misery ..

If you did not know better,
you would think that the whole world is going to perish.

If it's a habit for you,
to watch the news every day for half an hour ...

Have you ever wondered if it's healthy for you?

Does it make you happy ?

Of course not !

The easiest way to change a habit is
by replacing it with a new habit.

So from today on,
instead of watching the worldly news
half an hour a day

Watch COMEDY for half an hour a day.

Mandatory.

Every day.

Well, now at half past eight in the evening it's not news time,
but Comedy time.

If you watch comedy,
you relax &
you laugh.

Sounds healthier, doesn't it?

Well, laughing every day is easy to do, right?

And replacing your old bad habit in this way,
with a nice, healthy new habit,
is probably easier than you thought.

Except that relaxation is good for you,
when you laugh,
your body makes endorphins.

Those are natural happiness substances.

Well, after 21 days of daily watching comedy,
you will have formed a new habit.

So watch Comedy every day.

You can watch a lot of standup comedy on Youtube for free.

Simple?

Sure, but you have to do it,
every day,
until you don't have to think about it anymore,
and you start doing it automatically.

Some Happiness Ingredients in a row:

- Watch comedy every day, at least one hour.

- Eat ice cream, treat someone with an ice cream.

- Work out, throw out your frustration by playing tennis
or go for a run.

- Pee in the yard
(and if you get a fine for urinating, laugh your ass off)
- Do not worry, life is too short for that
(by staying busy, you do not have time to worry)
- Hug the people that you love
- Go enjoy a cup of coffee or tea
- Buy or save a cat or some other pet
- When you receive money, immediately save a part of it
- Don't let the media scare you,
the world is not getting worse, the world is getting better.
- Sex, need I say more
(when you have sex your body also produces endorphins =
those natural happiness substances)

Maybe the Recipe for Happiness

is different than you had expected....

But that doesn't matter,
the point is that it works &
that it will help you to live happier.

Do it,
it is easier
then looking with a sour face.

If you liked this book & got some value from it.

Would you then be so kind,
please,
to recommend it
to the people that you know.
So that they too can enjoy it

and live happier.

Thank you very much.

It was my pleasure to write and translate

this book (my third one) for you.

I hope it helps you to live happier.

(I know it will, if you do the things it teaches)

And I hope, that we can together make a contribution

to more happiness in the world.

We can.

If you recommend this book
and share it.

Then I will promote it.

And together we will make a contribution to
a happier world.

I would appreciate it if you would write a short review.
Thank you for your effort.

Kind regards,

Jasmin Hajro

Hello again...

I am Jasmin Hajro,
and you just have read a few things about me
in my bio.

But you have bought this book because you
want to know the whole story.

My life story

I called it Victory,
because I have overcome a few things.

I am 32 years old and live in Doetinchem,
in the Netherlands.
I work as a salesman
on behalf of Hajro.
I sell sets of greeting cards,
gift mugs and booklets.

Part of the proceeds go to more than 40 Charities.

You can find everything about establishment Hajro at
www.hajrobov.nl

I now live in the Netherlands.

But on 6 July 1985 I was born in Sarajevo,
in Bosnia.

When I was a young child, we lived in Gora.
That is a village in Bosnia.
It is on a mountain.
A mountain village.

The view is great,

lots of nature.
Clean, fresh air.

I remember it as a happy time.

The house we lived in
was a kind of 2 houses under 1 roof.
Aunt Rahima had lived in the other part.
Until her own house was built.

My parents both worked,
and I went to Biba,

an elderly woman in the village,
that was my babysitter.

I remember she had an old-fashioned stove,
which worked on firewood.
And we placed unripe walnuts
behind the stove, to ripe.

Under our house,
you had a steep part of soil,
and below that a flat piece of land.

On that flat piece of land,
we grew vegetables,
potatoes and very small tomatoes.
There were also pear trees and walnut trees growing there.

My mother worked at Tas,
an automobile factory,

where they made or processed.
small car parts.

I do not remember anymore
what kind of work my father did then ...
You notice that it has been a very long time ago.
I was always very happy to see him,
when he came home.
And asked once if he could work 2 days a week,
and be free 5 days a week.

My uncle Ibro lived close to us,
with Aunt Sevda and my nieces :
Sanela and Amela.
They had a red swing.
I have been swinging on it and went
as high as possible,
Until I got a kind of butterflies in my stomach feeling,
by excitement.
I do not know how to exactly describe that feeling.

With my cousins I did play games such as hide & seek.

I once wrestled with my father
and then I ended up falling weird on my wrist,
it hurted.

Then Dad said: hajmo kod Ibre rostiljat

Let's go barbequing at Uncle Ibro.

I went to the mosque,
and learned prayers
and how to pray.

I asked the hodza
that's a kind of reverend,
how you can know if someone is lying.
He said you can see it on the forehead.
That it turns a little red.

It is very peaceful in the mosque,
I still see it that way.
Although it has been a while since I visited one.

It is now March 27, 2018,
00:44 hours at night.

I'm getting out of bed in the mornings, late again....

I wake up at 9 or 10 in the morning
from the alarm clock.

I then switch off the alarm.
And fall asleep again.
When I wake up again afterwards it is already noon.

I had sleeping pills a few weeks ago,
for 2 weeks..
It went well

I started going to bed earlier,
and getting up earlier. Before noon.

Maybe it is a strange time, in the middle of the night
to write a book.

But I thought that once, I just had to start writing it.

When I was playing at Chess Club Doetinchem,
I said to Frans that I wanted to write a book
about my life.
That could have been in 2009.

Biba, the woman who looked after me when my parents worked,
was also the babysitter of an orphan.
I do not remember what his name was.
But we went to the mosque together.
There he farted ...
And we were both thrown out.

My father drove a Fico,
that is like a kind of old model Fiat 500 car.
If we drove to Grandpa and Grandma,
I could sit on Dad lap
behind the wheel.

The first time I saw snow,
I walked outside in my pajamas.
I was completely stunned to look at it.
Amazing.
It must have been cold outside.
The winters in Bosnia are colder than here.

My father became very angry,
and I got a beating with his belt.

I remember that I was rolling over the ground
and called: nemoj babo
Don't hit me, Dad

My index finger was completely swollen,
because I was hit there too.

I still love it
to look outside
when it snows.
Everything seems so peaceful then.

Oh, those beatings were normal.
That was how you got punishment,
and how other children received punishment
in Bosnia.

I was 6 years old when I went to school for the first time.

When my sister, Emina was born and I saw her for the first time, she looked tinted.
And I thought she was not my sister.

My father once had in an angry mood,

thrown the TV out of the window.

I have around my twentieth year
done the same thing once.

Once my father went to Aunt Rahima,
and I was not allowed to go with him.

Then I went outside
and looked in through the window at them.

My father got angry,
and I had to sit naked in front of the house.

If I wanted a beating,
then I could ask
my daddy, he told me.

My father drank,
mom says he beat her too.

The war had started
between Bosnia and Serbia.

We had moved
because the enemies came too close.
We have moved a number of times.

My father had to fight for Bosnia,
in the battlefield. And was not always with us.

We left the village
and we were in an abandoned house.
I do not remember what that place is called.
We have harvested grain,
and grown potatoes.
We took care of the cow of uncle Ibro,
Galava.

On my fathers request, I had tied Galava to a tree,
so she could graze grass.
But I hadn't shortened the chain
and she had too much
walking space

so she had eaten a number of our potato plants.
I got another beating.

You could hear the shooting from a distance.
A house near the one where we were in, was blown up.
We left that place in the evening.

A previous hotel became at that time
a shelter for refugees.
We spent a while there,
and got food packages.
I also fell on the stairs there
with a bottle of milk,
and had a cut on my wrist.
It is been stitched and the scar
looks like a cross.
You can still see it,
on my left hand.

My father was not with us
in that shelter.

I remember that we were waiting one time,
with lots of people,
probably for those foodpackets.
It was so oppressive ...I felt like I was choking.

My aunt Rahima had already fled to the Netherlands,
and they arranged that we could go there too.

I remember that I had to hold my sister's hand
and was not allowed to let go. When we were with the cow
walking through the forest.
I do not know how long we have walked.

My father stayed behind at a border.
And said to mom
prepare today for tomorrow &
prepare tomorrow for the day after tomorrow

We had help from a woman in Croatia.

Eventually we were awaited somewhere
by Aunt Rahima.

We signed in as refugees.

And went to an asylum seekers center,
a period of time in Alkmaar ..
And a period of time in Kampen near Dronten.

There, I watched Lion King for the first time and
almost had to cry,
because I missed my father.

We went to school and learned Dutch.

After the asylum seekers' centers we got a Roahuis
in Doetinchem,
on the Leliestraat. (lilystreet)
(a Roa house meant that we had a house and
the government paid the costs for living,
if I remember correctly)

After 5 years we received the Dutch nationality.

It was a red apartmentbuilding on the Leliestraat,
where we lived.

We got to know Zihra,
who lived in the blue building.

Also from Yugoslavia.

There were 3 brothers in our red flat,
a few houses further.

One of them had hanged himself.

My father came to the Netherlands wounded.

We had those piggy banks,
in which we saved money.
So that dad could come to us.

It would be like before,
our family together

I played a fighting game with Dad on the Nintendo.
And he made baked eggs in the morning.
Very tasty.

The reunification did not last long.

My father left us.
My parents then divorced.

We got a rental house in Doetinchem,
at the Ottawastreet 19.

We are still living there now.
Although mom now has a boyfriend,
and is with him in the weekends.

And my sister Emina,
is now very pregnant.
I will be an uncle,
in a few weeks.

I once already had described on paper
this piece of my life :
my time in Bosnia and
the flight to the Netherlands.
And called it Rebel.
With more details,
but I lost it.
Or someone took it.

After group 8 I went to the MAVO.
At the Rietveld lyceum in Doetinchem.
I obtained the Mavo diploma.

The Mavo lasts 4 years,
I think in the 3rd year
of the Mavo,
I had moved and lived with my father for a while.
In Smilde, province of Drenthe.

Then I came back to mom.
Heartbroken.

I think this will become a series

Are you looking forward to the sequel?

To be continued.

more than 40 good causes.

Thank you & congratulations.

I should not actually do this ...
But you have shown so much faith in me.

It would be good then,
to prove to you,
that what I say,
also really happens.

So I trust you,
that you deal confidentially with it,
with that proof.
Ok?

book Victory II

Hi dear reader,
how are you ?

I am Jasmin Hajro,
and you just have read a few things in my bio
about me.

But you have bought this book because you
want to know the whole story.

My life story

I called it Victory,
because I have overcome a few things.
So, I am Victorious. And you as a donor of more than 40
charities are Victorious too.

Did you enjoy Victory ?
Sorry for the spelling mistake in it.

Welcome to Victory II

I am 32 years old and live in Doetinchem,
in the Netherlands. I work as a salesman
on behalf of Hajro.

I sell sets of greeting cards,
gift mugs and booklets.

Part of the proceeds go to Charities.

You can find everything about it at

www.hajrobv.nl

It's now March 31, 2018,

23:52 hours.

On this Saturday I am free

Well,

I have prepared the presents for customers today,
and also the business cards and mugs. For next week.

I bought some groceries,
vacuumed the house. And have eaten 3 times.

Then I went for a run.

It was half past 10 in the evening.

It also started to rain
and I was soaking wet after my jogging lap.

Then I smoked some tabacco and
drank a cup of tea.

But do not tell anyone.

Yes, I smoke tabacco,
and I jog.
There are no excuses for not exercising.
If a smoker can do it,
then you can certainly do it too.

After showering,
I ate my midnight snack.
A piece or 6 sandwiches with cheese
and a glass of milk.

My sister and her husband have returned
from a wedding and have went
to bed.
Beamy our cat, also came home.

Maybe you think that I've written and published ,
a lot of books in a short period of time

That is not a mystery.

First of all, my books are short.
I believe you do not need to write an encyclopaedia,
to teach someone something.

We used to have an offer at the Hajro E-store,
the VIP. That is a luxury greeting card subscription,
where you get all kinds of extra bonuses.
The Recipe for Happiness would be included for free.
And it would be about one page long.
But it is now a comprehensive
valuable guide,
and become a nice book.

You know the period when there were so many people
fired at the banks ...
I then got a good idea

By means of a program,
the bank could help people to become rich
and instead of firing employees, keep them and
hire new staff.

Tired and feverish, I had neatly typed out my program.
And I went to ING bank with it.

They did not want it.

And that program became my book
the lifebuoy for banks " loyal banking "

As you can see, the book was basically ready.

I have many years ago
written a number of poems .
It has also been years since I had been sending messages
and jokes via Facebook
to Rietje. (A girl I fell in love with, who had been a coworker)
I had printed out all those messages
and put them in a folder.
So my book Poems, jokes and book,
was also largely finished.

If I ask you to describe me
how your day was today ...
That would not be that difficult for you.
If I asked you to describe how your
past month was.
Then that too, would not be difficult for you.

So for my book Victory,
it was a matter of sitting down
rolling up my sleeves and starting to write.
I just described how
my life has been in that period of time.

So, therefore,
Well, you now know how I , in short chunk of time,
have been able to write & publish a number of books.

Ok, that being said, where were we ?
When I did the MAVO education
(general secondary education If I translate correctly),
I had lived with my father for a while.
And returned heartbroken to mommy.

It had hurt me a lot,
when my father left us. When we lived in Lilystreet
(Leliestraat)We had missed him for so long,
and had those piggy banks
in which we saved money,
so that dad could come to us. From Bosnia.

And after being reunited for such a short time,
he left us.

Maybe then as a child I thought,
that he did not want us,
and that he did not want me.

So he went to live in Smilde,
we stayed in Doetinchem.

I missed him very much,
and wanted to live with him.

My mother had a boyfriend at the time
who then drove me to dad, I believe.

My father had a new wife,
she is Dutch,
and has 2 daughters from her previous marriage.

I went to the Nassau college there,
in Assen. I had to every morning
travel for 1 hour on my bicycle to get to school.

I especially liked going to my aunt
Kasema , and spending time with my cousins.
Aunt Kasema is Papa's younger sister.
She has 2 sons and 1 daughter.
We played super mario
on a game computer.
And had lots of fun.

At school things were going ok.

I could hardly share my father at home
with them.
In principle, we were nice to each other.

I started my puberty then, I think.

I was pulled back and quiet.
I listened to rap music.

At school I was friends with Robert,
who called himself Skip.
In the break we were once driving around

on his scooter. I was on the back seat.

A bit driving through the city,
and in front of the police station,
without helmets on.

Then we slipped and fell down while taking a curve.

My father was not happy.

This is how the tensions built up at home ..

In the end I could choose
either change my behavior or return to my mother.

So I went back to mom, sad.

I went through the 4th class of the Mavo
at the Ludger college.

I then started to smoke.
Cigarettes. To try what it was like.
The first time I became dizzy.
Then it became a habit.

Then I started to smoke weed.
To try it.

I never liked the smell.
It was funny at first, with periods of time in which I started
laughing at almost anything.

Then that became a habit.
And it seemed like I was less active.
I had been practising karate for more than a year.

I was stoned every weekend.
Watching movies, eating chips.
Hanging around.

I became friends with Kai,
a classmate.
We had fun.

We got one time
a block of hash,
to sell.

We eventually ended up smoking the whole thing ourselves.

We have that movie, Pulp Fiction
seen about 20 times.
Very very stoned.

Just so often,
that we had memorized the dialogues from the film.

Like :

Ezekiel 25:17

the path of the righteous man
is beset on all sides
by the inequities of the selfish
and the tyranny of evil men

Blessed is he
who in the name of charity
and goodwill

Shepherds the weak
through the valley of darkness
And I will strike down upon thee
with great vengeance
and furious anger

Those who attempt to poison and destroy my brothers

And you will know
that my name is the lord
When I lay my vengeance
upon thee....

I even now remember the lines.
Ridiculous right ?
Maybe we have seen that movie 30 times.

Later I started to experiment with other drugs.
Xtc tablets and speed.

Of course I had tasted my very first beer,
a while ago.

So I often drank beer and smoked weed
to become stunk.
Stoned and drunk. At the same time.

I went way over my limits,
and had to vomit quite some times
because of too much booze.

I started to go higher more often
with those pills.
When taking them, you feel really good,
you get energy from them,
and I went to drink a lot of coffee
so that the effect lasted longer.

Eventually I was awake all night after taking 5 pills,
and just continued to take even more.
We sat in a park with some people who I
did not know.

Me and Pino. That's what everyone called him.
I also sniffed some speed and drank red vodka.

At a given moment,
we started walking home.
And was it was like I could see the wind.

I had taken 10 or 15 tablets.
I began to hyperventilate.

When we arrived at home it was already morning ...

I was looking very pale,
and wanted to drink water but couldn't.

I walked back and forth,
could not stop.

I thought my chest would explode.
In a hallucination, I saw a big black hole,
thought I was going to die
and peed in my pants.

My mother and sister had come down
and panicked.

I think someone called the police
and I was thrown into a van.

Then the lights went out,
I lost consciousness.

I woke up in a hospital bed.
My father came and asked if I knew what I looked like.

I said no.
My face was swollen.

I had been in a coma for several hours.
They had said to my mother:

if he does not wake up,
then he will not survive.

This happened in a point of time in my life ,when I was
working in the hospitality industry , at restaurant the Mirror
(de Spiegel).

Pretty quickly after my neardeath experience,
I went back to work again.

I came to work a few times too late
and was fired there.

I have tried the Havo education,
(higher general secondary education)
the adult education program,
but that did not work out.

I registered at temporary employment agencies
and worked at jobs that they offered me.
Mainly productionwork.

I have after that coma,
once tried to smoke a joint.
I didn't feel good,
got palpitations.
That was the last time.

From then on, I stopped taking drugs.

I did still drink alcohol.
And now also whiskey.

It often went with those jobs
the same way..

I did it for a while.
I worked, earned.

Started to show up late.
And was fired
or
did not show up anymore.

I applied for a job in 2007
at Palestra / Landal,
and started working as a dishwasher.

I came too late there, too
though I did not have to start working until the afternoon.

There was a positive atmosphere,
and we always had a drink after work with coworkers.
Once I got at home, I kept on drinking.

I was allowed to help on the cold side of the kitchen,
to prepare appetizers and desserts.
After some time, I was fulltime on the cold side.

Eventually I also learned the warm side of the kitchen,
making soups. Baking fish and steak.

Cooking lunch and dinner.

I worked hard,
I wanted to live better.

One day after my birthday,
after I had drunk a lot.
I collapsed and fell to the floor.
(Perhaps because of too much drinking and fatigue)

I then stopped drinking alcohol.

I had a permanent job there.

The work became hard to do,
until I didn't function there at all anymore.

I got resigned.

Then I was at home and had the feeling
that I broke down.

I received a unemployment benefit.

In the last years that I had worked there,
I started watching motivating
videos on youtube.
From Jim Rohn and Brian Tracy.
I also received a journal as a gift, an empty book to write in.

While working at Landal,
I earned well and had few expenses.
I saved and did a homestudy course :

Wiser with money.

Then I learned to invest myself.
By taking another homestudy course,
read books about investing
and by investing myself.

Somewhere I read about pensions
and the pension discount.
If you have worked abroad for a number of years
or are a immigrant and have not 67 years of employment history,
then you get less pension.

My parents would then receive a half-pension,
they had a big problem.

I wanted to get rich ever since.
So that I could give them a good pension.
I have read books about becoming rich.
Listened to audiobooks.

Eventually, I came up with a financial system.
To systematically build up a fortune.
I have applied for a patent.

And I described the system in my first book:
How you build your own fortune with simple steps.

I have now published the 3rd edition of that book,
with the title Build your Fortune.
(I have received a patent on February 27th 2018.)

I could not find a job after that unemployment benefit.
I have emailed many job applications.
A lot employment agencies I visited.
In person I had visited with my resume,

more than 100 companies .

They did not have a job for me.

What could I do?

I did not want to go back to the hospitality industry anymore.

I liked investing a lot more.

So I started my first company

called Jasko,

on December 17, 2012

An investment company.

The saving and investing that I did for myself,

I could also do for other people.

I have had a relationship, a number of times
with a girl.

I fucked Hilde for the first time when I was 16.

Later I also have had sex with a girlfriend
of my mother .

Which is like 20 years older than me.

To be continued.

Are you looking forward to the sequel ?

It will be released on July 6th 2022

Hello dear reader, how are you ?
Thank you for buying my book.

.
My name is Jasmin Hajro,
I was born on July 6, 1985 in Bosnia.
As refugees, we came to the Netherlands 21 years ago.
After having completed school & worked at several jobs ...

On 17 December 2012, I founded my first company:
investment firm Jasko.
After a successful first year, I unfortunately had to close that company. After a short
period of rest, unemployment and temporary work. I started again as an
entrepreneur.

On September 1, 2015, I founded establishment Hajro.

(We say establishment instead of company,
because we do a bit more than just sell stuff.
Like providing jobs,
donating to 40 different charities,
and helping people to live richer.)

Since the beginning the core activity is,
selling sets of greeting cards, door to door.
Nowadays the product range has been expanded.

With, among other things, the selling of my 12 books.

The royalties of my books are donated to the charity:
foundation Giveth Life.
From there more than 40 other charities receive donations.
And by buying this book you support more than 40 charities.
Thank you.

My company is now part of Hajro Group,
which consists of 19 different subsidiaries,
that are part of 1 umbrella organization :
Called Energy Now.

For more information about my company
& the foundation,
go to my website : www.hajrobv.nl

Hi dear reader,
how are you ?

I am Jasmin Hajro,
and you just have read a few things in my bio
about me.

I am 32 years old and live in Doetinchem,
in the Netherlands. I work as a salesman
on behalf of Hajro.

I sell sets of greeting cards,
gift mugs and booklets.
A part of the proceeds goes to 40 Charities.
You can find everything about establishment Hajro at

But it hasn't been like this always ...
It has been completely different.....

It was 2015 in the evening around 10 o'clock.
I walked outside,
without money,
with my phone that had no credit on it.

It started raining,
The last thing that I needed was rain ...

I did not know where to go

I could not call anyone.
I had had some friends,
but I hardly had any contact with them.

I went into a playground in
our neighborhood
I had went there also the previous time.

The previous time,
when I was also kicked out of the house & on the streets at night.

My mother couldn't endure our home situation anymore,
she demanded that I give her my house key.

I gave her the key and left ...

She doesn't even own our house, but she pays the rent.

There I was,
homeless,
on the street,
in the rain.....

It started to get colder.

I have been able to hide in that playground
in some kind of wooden little house.

I was angry,
when I had cooled down,
I started to think more clearly.
And wondering where I should go
and what I should do?

When it became morning & the sun started to shine
I walked to the center of the city.

Everything was still closed, it was too early.
The church was also closed.

I had heard about some kind of shelter
that a friend of mine had talked about.
He has moved to England some years ago.

So I walked towards the Iris shelter for the homeless.

When I arrived there, I told them my story,
and received a cup of coffee with milk in it
(I never drink milk in my coffee)

But they had no room for me!

So the people who's job is to help people who are homeless,
couldn't help me.

Fuck the so called help.

I could go to day care,
but that was only during the day.
At night I had to sleep outside, on the streets.

On the way to the daycare,
I thought :
I have to go to Arnhem, to Appco.

To sell,
as an energy consultant
you always have work.

At the daycare
I had to pay for a meal.
But I did not have any money at all.
I could get a meal on credit. (Later I should pay for it)

I had to register with the municipality
for a social welfare.

Just went outside to smoke,
made a little talk with a few homeless people,
who were there too.

Went back in again.
There was a telephone for me,
my sister and her at that time boyfriend called.

They were coming to pick me up

Finally when we arrived at home, it was time to eat.

I was hungry like a bear.
I was so pissed
that I could not look at my mother.
I looked at the table.

Because I was so angry,
close to hatred
So angry.

Mama asked if I had learned something?

We talked..
I apologized.

And I went to bed,
exhausted.

I had not slept all night.

Nobody was there for me that night
they were not standing in line
to help me.

Even the people who help homeless people,
whose work it is to help them.
Could not do anything for me.

Well,
the next time someone says to you
that money is not that important.

Then that someone talks out of his ass
and not out of his mind.
And you need to make that very clear to
that person.

If you do not have money you can not buy food and drinks.

If you don't have money to pay your rent for 3 months,
then you are kicked out on the streets and
you are homeless.

If you don't have money to buy food and beverages for 2 months?
Then you will die from starvation.

I realized that the house we lived in is not mine.

And neither is the garden.

I almost did not have anything.

Except some clothing,

300 books

and some things.

I hated doing chores

in the garden.

Because it is not my garden.

Also, first I put you on the street
and then you can do chores for me.

You're completely out of your mind, I thought.

But because I did not bring any money into the house,
or paid for living expenses,

I could help out by

showing some contribution and doing chores.

Was her reasoning.

Before all that,

before my homeless night on the street.

Was a time when I could not find employment,
except production work (which I never could endure for long)

So I started my own business. A investment firm

Called Jasko.

Because I loved investing
and I could do it too.
I already had experience and invested for myself,
when I had a permanent job as a cook
at Palestra / Landal in Doetinchem.

So I reasoned, I could also invest
professionally for other people.

I had no experience with selling
or with selling myself.

I found 5 customers,
my father, my mother, my sister,
my ex-girlfriend and a friend of my mother.

Plus I invested my own money in the portfolio.

I invested mainly in mutual funds,
to reduce the risk.
And we were invested in many different companies
globally. Thru the mutual funds that we had money in.

There was about 1600 euro's in the portfolio.

It was making very small profits
almost daily. But cents & a whole euro on some days.

I paid the promised 10% return to my clients.

And a bonus return of 2.5%

I donated a modest amount
to a charity,
on behalf of investment firm Jasko.

It was clearly not enough
to make a living.

There should be a 100thousand euro's in it,
so that I could make tens and hundreds euro's as profits.

I started buying options.
I had no experience with that.
Lost some money.

Made some profit.

Lost some more money.

My sister moved in with us again,
after her relationship had ended.
That boy had not been good to her,
she returned home with a lot debt.

So there was not enough money coming in at home for
3 people. Mama's minimum wage
maintained the survival of 3 people.

If there came a bill for the
yearly municipal tax (500 euros per year)
then it could not be paid.

I really believed in my company
and did not want to do anything else.

I had also applied for a patent
for my financial system and
my idea for a investmentfund.

The 2 things that my investment firm was based & founded on.

But I actually had to start looking for other work.

I started with Hajro Klusjes,
to do household chores
or the garden for other people, for a fee.

I started working for an elderly man in our neighborhood
cleaning and vacuuming,
dusting off his house.

Then I also started looking for work
via employment agencies.

Thru their help I started at Rabelink
as a loader / unloader of trucks.

I eventually signed out my company in 2015,
out of the Chamber of Commerce.

I was very sad.
And became a little lifeless.

A kind of social worker wanted me than,

to sign some kind of agreement,
which meant that I would give up control over
my finances and life.

The Bitch
Damned so called help.

I no longer believed in help.

Self help was the best help,
Dad said once.

And it's the only help there is, I think

My little sister had at that time
already 5 years experience with selling.
(She is only 5 years younger,
no small child or something)

She had started a new business with her
new boyfriend and a colleague from the past.

Called : Your advantage now partnership.

She was also founding a foundation with her boyfriend.

Foundation living together with others.
I have seen the founding document,
drawn up by 026notary in Arnhem.

And I got a chance to start selling greeting cards.

Oh yeah,
that loading / unloading job
has gone like all other jobs,
that I did not want to do.
I showed up a few times too late for the job,
and eventually I did not show up at all.

Selling greeting cards,
would be a good workout
to eventually become an energy consultant
going door to door.

The sales process is the same.
Speak to 100 people a day,
make 3 laps so you speak to everyone
in your terry (work area)
The pitch (your presentation)
is the same with every person who
you speak to.
And so on.

I got training from them,
Emina my sister and her boyfriend.
I also started looking at seminars
about sales (selling)
on Youtube.

Practising my pitch.

I started to become enthusiastic.

I was at home one day
looking at those greeting cards.

And I thought to myself,
I can do what they do.

And anyway what's the worst that can happen,
if I forget the pitch,
or start stumbling my words.

Emina said the worst thing that she got was
a doorslam.
When someone closes the door with a slam in front of you.
Ha, just that?

So I took my pitch on a note,
a money bag and a number of sets of greeting cards.

And began to walk and sell,
I just started in my residential street ...

Before I was ready for it.

I sold a number of sets,
the people were much nicer than I had expected.

I think many people want to do something good.
Even if it's only buying a set of greeting cards
for charity.

The foundation is allowed give rewards to her
management and employees.

The website of the foundation did not work.

Emina and her boyfriend split up.

He had the bill for the founding document
of the foundation, never paid.

The foundation was not yet technically founded.

To get rid of the hassle.

And to be able to continue selling,
what I started to like in the meantime.

I have with the saved money
from my greeting cards sales
set up my own foundation.

Where everything was alright.

And that is of course:
foundation Giveth Life

Made a website for it,
and I continued to sell happily.

Then the police came a number of times,
because they felt that I was collecting.

I was pedaling,
in my head collecting is:
going door to door with a money bus asking for donations,
without giving anything in return.
I sold a product.

They thought differently

I had already again registered with the Chamber
of commerce,
to be an independent energy consultant
and to be able to sell.
With company Hajro.

To get rid of that unnecessary hassle with the
police.

I decided to sell greeting cards,
on behalf of my company Hajro

And to donate part of my proceeds to Charity.

The probability was that in the future the greeting cards demand
would be less,
because of Facebook, Whatsapp
digital cards etc.

So I had to come up with something else,
that people would always use,
but of which would fit about 10 units in my bag
to take with me.

I came up with the handy set ...

A handy set is : A mug filled with candy,
plus a teaspoon, a lighter and a pen.
Wrapped as a present.

Because people will always keep drinking their coffee
or tea from a mug.

I also wanted it bigger
and better. A beautiful store
I wanted to make out of my business.

Eventually it was at
www.hajro.nl

Then someone bought that domain.
Coincidentally. I think there was nothing coincidental about it.

Now I had to create a new website,
the old web address is printed on my
thousands of business cards,
on the flyers,
and even on the covers of my books.

I had to do everything over again.

Well the new and improved website
is of course www.hajrobv.nl
and has a fun and unique
E-store.

With only Hajro products.

Of course I love my company Hajro very much.
It's like a baby for me.

We're doing well too,
and support many Charities,
and my books can really help people.
To live happier and richer,
and to make their business more profitable.

I earn my money with sales.

So the royalties (the proceeds)
from my books go to the Charity that I founded.

A good foundation,
called the Giveth Life foundation.
Which has already given families a helping hand.

I would like to tell you more about Hajro,
because it's going to do a lot of good things,
but the intention of this book
is to tell you something else.

Of course you can always
get the e-book Establishment Hajro,
the conglomerate
As a free download
on www.hajrobv.nl, when I finish translating it.
You can go through the E-store
to my authorspotlight at Lulu.
You will automatically get when
you click on one of my books in the E-store (E-winkel),
at www.hajrobv.nl

As you can see,
since that night when I was homeless on the street.
Since then I always have work and always cash in my pocket,
I now can sell and earn every day of the week.
Thanks to sales (selling)

A blog article of mine:

Salespeople sell something to the market (the people/consumers),
the companies that those salespeople work for make profits.

With a piece of those profits taxes are paid,
the government pays for facilities with that money
that we all sometimes use.
Facilities such as the fire brigade, the police, hospitals,
roads (infrastructure).

Companies are also the ones that donate the most money to
Charities.

And companies also give more money than anyone else,
to the
sponsorship of sports clubs and sports clubs.

And also not unimportant:
companies give millions of people work.

So there is nothing wrong with commerce and
commercial companies.

How can those companies do that ?

Because of sales.

By selling products or services to people,
there will be money (turnover & profit)
that comes in to those companies .
And through sales, money comes in your pockets as well.

" By the way, I started my first company in 2012.

I have made more than 700 sales,
since September 1, 2015 so far.

So I have a track record, and I know what I'm talking about. "

"As you have probably already understood, I earn my money by selling for my own
company. That's my work.

The proceeds from my books go to charity.

I write from experience, I write to help people improve their personal & business
life. "

Well 700 times 5, - euro =

3500 euro

But do not get turned off by that amount

For someone who was homeless,
and now has work until his retirement.
Every day work & money in his pocket,
every day.

It is good.

Remember that if you help someone switch
from, for example, his current electric supplier,
to another electric supplier. Which is cheaper for that customer.
You earn 50 euros or dollars in commissions.

As an energy consultant.

And 50 euro/dollar times 700 customers =
35000 euro/dollar

Find 20 people per month,
that you help to switch from energy supplier,
(that means you fill out a form)
and you earn
20 x 50, - = 1000, - euro/dollars a month

With 40 customers per month you earn
2000, - euro/dollars per month.

You only have to find 1 or 2 customers per day.

Do you see what the possibilities are in sales?
Available & possible for you too.

You can start very simple
by selling pens for a euro/dollar .

On Saturday.

1, - euro/dollar per pen.

Then sets of greeting cards.

5, - euros/dollars per set.

Then electric & gas,
to arrange the switch from current supplier to another,
by filling in a form.

And earn 50 euros/dollars per customer.

Then start selling vacuum cleaners or cars
and earn several hundred euros/dollars
per customer.

After that you can start selling houses,
and earn 10,000, - euro/dollar or more
per customer

In sales you have work until you retire!
Job security.

It is best if the company that you are selling for
does some good.

Then you also do something good
and you just feel good about it.
Because you do something more,
than just sell a product or service.

That's why I like to sell for Hajro,
because I support 40 Charities,
and the customers do too.

You can become a volunteer at Hajro,
if you want.

Then you walk on Saturday to sell.
And you get a fee for it.
You learn the trade.
And do good,
by supporting Charities.

Visit us at www.hajrobv.nl
and if you feel good about it.
Please contact us via mail or email.
And otherwise you can always go somewhere else
to start in sales, in the place where you live.

Or you can start your own webshop.

If you want to sell for Hajro

Then you will be trained by the same person
who has taught me to sell. My sister.

Emina Hajro now has 8 years of experience with
selling (sales)

She has a track record.

She had an office with 20
selespeople.

She has trained dozens of people
to become a salesperson.

And she has made thousands of sales.

She is the owner of Energy Now (EnergieNu),
that is the overarching organization

for Hajro and Hajro Group.

You can find it on www.energienu.nl

Selling is a very important profession.
As you have understood from my Blog article
the economy moves
thanks to salespeople.

Government employees are also paid,
through the tax on profits from companies.

You can be proud if you become a salesperson
or already are one.

Well, I have told you
how sales literally saved my life.

That I have work until my retirement
and after that if I want.

I showed you the possibilities,
what the salesprofession has for you,
if you eventually grow to sell more expensive products and
services.

Or become a broker =
seller of houses and business premises.

You understand that with my company Hajro,
what is Hajro Group nowadays,
other people

get the same opportunity.
As the wonderful opportunity that I got

Yes, I have by now already 3 times
applied for various wellfares.

All have been rejected.

I can not count on the municipality or the UWV
(organisation for welfare for unemployed).

But I can count on myself and on selling !
Every day.

I have from Monday, September 18, 2017 to
Wednesday, September 27, 2017,
been selling 10 days running in a row,
and made 22 sales in total.

So every day I made sales & every day I made profits.

Earning money every day.

You can do that too.

Hopefully I have been able to enthuse you
about the selling profession.
And hopefully you will start selling.
Even if it's just 1 day a week.

Or you send someone you know,
who needs work and money
into the selling profession.

Into Sales, where there is always work.

Give that person a copy of this book,
so it helps him or her
forward.

You have now read
book Always employment & always money in your pocket,
every day

You have been offered work until your retirement.
Job security.

Be willing to do the things,
from the book.
Start small,
step by step.
You can do it.

Would you be so kind
to recommend this book,
to the people that you know ?

So that they also buy a copy,
and improve their lives.

And I will promote it.

Then we will make it a BestSeller together, and do good,
because the proceeds go to the Charity.

To that good foundation,
foundation Giveth Life

Super thanks in advance.

I wish for you the best things in life.

Kind regards,
Jasmin Hajro

P.S. If you want to share your experience with my book,

Jasmin Hajro

My name is Jasmin Hajro, I am the founder of establishment Hajro, Hajro Group & foundation Giveth Life.

And the author of 13 books, which are available (in Dutch & English)

in 190 countries worldwide.

Establishment Hajro specializes in direct selling
sets of birthday greetingcards.

And donates part of it's proceeds to
more than 40 charities in the Netherlands.

Before becoming an entrepreneur,
I've had a successful career as a cook.

After 10 years of reading, studying, taking courses,
investing personally & professionally....

I became a selftaught financial improvement specialist &
share my patented financial system

with you, in my #1 book Build Your Fortune.

In my other books I share my knowledge,
life experiences and business strategies,

to help people improve their personal & professional life.

The royalties of my books go to charity,
namely Foundation Giveth Life.

Things you do not want to know

I start to wonder if this is a good idea.

Why would one make an ass out of himself like this ?

I'm well on my way,

I have always work as a salesman.

I can earn every day.

Monday to Sunday, yes.

I always meet other people &

no one is breathing down my neck or telling me...

What I have to do.

I have written 9 books, actually 10 ...

The 10th is about Establishment Hajro and as
you read it, it's like you are visiting the website.

Nowadays you get a Bonus book with it.

The other 9 are better.

My books have been published in 190 countries worldwide.

If someone buys a book from me,
the part that I receive (the royalty) goes to the Good Cause.

As you already understood, it is donated to charity :

foundation Giveth Life.

(At the time that I am translating this book, on august 7th 2018, I have written a total of 13 books. And the title of this book was going to be :

Really fucking lame)

What many people do not know

Establishment Hajro donates money to more than 40 Charities,
and the Giveth Life foundation processes payments to and
from Hajro. From the same bank account of the
foundation, all donations are made
to those more than 40 Charities, in the Netherlands.

So if you buy a book from me,
and I would get 5 dollars royalty for that.
Then the 5 euro goes to the Giveth Life foundation.

And from there it is,
with modest amounts,
donated to many more Charities.

-

So the buyers & readers of my books,
support more than 40 Charities.

Nice to know, right?

The weird secret of a long-term & happy relationship

-

A blowjob a day, keeps the troubles away.

Those kind of moments

Have you ever been unable to poop for 2 or 3 days ?

And then suddenly you need to.

And you find it a waste of time to be there
sitting on the pot for a quarter of an hour and looking at the wall.

So you take a book with you,
and start reading while you start to shit.

Well, about half an hour later
you're finally ready. And wipe your butt 2 or 3 times
with a new piece of toilet paper.
Yeah, you are of course quite hygienic.

And you flush the toilet.
And the toilet bowl just runs full of water,
and you see your turd
and your toilet paper floating in it.

There you are.....looking at it
And it just doesn't flush..
So you take the toilet brush and try to press down the mess.
No effect, only your brush gets completely covered with shit.

You rinse again &
hallelujah.

You then rinse again to clean the toilet brush.

When you're done, you spray some of that air freshener around.

Wash your hands and sit back in the living room.

After a minute or two,
you notice that smell.

I wiped my butt 3 times, used a quarter of a roll
of toiletpaper .

And washed my hands.

Why is that smell around me ?

My mother and sister watch TV.

Would they smell it too?

The mystery remains unresolved.

I do not know how much later.

Maybe a few days later,

I realize,

maybe that smell got in my clothes,

after sitting half an hour on the toilet.

Finally figured out.

Visiting

So you visit your father in Smilde,
in another province. About 2 to 3 hours

from your place of residence.

You obviously take with you a bag with
important things.

Once there, you get your journals (journals)
out of your bag. And says you took em with you,
so Dad can read them. Who does not like to read &
asks : did you bring the necessary things with you.

Like a toothbrush?

Eh, no. My tobacco and journals only.

33 years

(It is now June 19, 2018,

Tuesday evening 22:00.)

You will be 33 years old, in 18 days
and you still live with your mother.

Well, things worked out differently.

-

Legendary sock

Lie in your bed there, thinking of a beautiful woman
and playing with your dick.
And after your minute of glory,
cumming in your sock.

I told you already, that you don't want to know these things.

And that I wonder if writing this book, is a good idea.

Ah well, what can happen,
except that people laugh at you.

Many people laugh at you.

All over the world.

And that you become famous & worldfamous,
not because of the good things you've done or
to the people you helped.

But for being the cumming in the sock guy.

Worldwide.

You must be feeling great

After 28 months in a row,
having made sales every month.

(closed sales)

And we got a new kitchen.

And my sister had given birth,
and I also became uncle of a beautiful little girl.

And in the meantime I wrote my 10th book &
published it.

How would you feel about yourself?

I woke up half-dead,
the days and weeks thereafter
I couldn't get out of my bed.

Some kind of burnout.

Now 2 months later,
I am finally becoming more active again.

Orderly

***I have a lot of things in my office / room,
but it is orderly.***

***I have lists for everything,
to do lists,
reminders, notes.
But it is orderly.***

I can not stand it when things are messy.

Do you have that too?

Proud parents

-

My mom and dad are absolutely super proud
of me. Because their son lets the whole world know,
that he cums in his sock.

Well, as a thank you for reading this little booklet.

That is a bit different than usual.

You receive a Bonus.

*Book Recipe for Happiness,
is yours to read on the following pages.*

Have fun.

The Recipe for Happiness, introduction

A book has been written about a true story ...
About a man who was imprisoned in a concentration camp
at the time of Hitler,
and happy.

So,
Happiness has nothing to do with your circumstances.

It has everything to do with,

your choice to be happy,
regardless of circumstances.

Choose to be happy.

Of course there are tougher times in life,
like when someone you love,
dies.

That's part of life.

Those times of grief you just have to go through and process.

Processing is best done by talking about it,
to get it off your chest regularly.

Or by writing about it,

if you write down a situation or your feelings about it,
then it's on paper,
and it is less in your head.
Writing is a good outlet.

Processing is also done well by:
staying busy.

Whether that is in your work or your hobby.
They say: a rolling stone does not collect moss.

So stay busy

Okay, now you have learned a good lesson about how to
better process negative life experiences.

But you're here for the Recipe for Happiness, right?

Well, the lesson you've learned will help to
make the recipe work better for you.

Chapter I

-

Here it comes then ...

You have probably read a local newspaper,
and you regularly check the news.

(the daily news on television)

Have you noticed that about 99% of it is bad news?

Only misery ..

If you did not know better,
you would think that the whole world is going to perish.

If it's a habit for you,
to watch the news every day for half an hour ...

Have you ever wondered if it's healthy for you?

Does it make you happy ?

Of course not !

The easiest way to change a habit is
by replacing it with a new habit.

So from today on,
instead of watching the worldly news
half an hour a day

Watch COMEDY for half an hour a day.

Mandatory.

Every day.

Well, now at half past eight in the evening it's not news time,
but Comedy time.

If you watch comedy,
you relax &
you laugh.

Sounds healthier, doesn't it?

Well, laughing every day is easy to do, right?

And replacing your old bad habit in this way,
with a nice, healthy new habit,
is probably easier than you thought.

Except that relaxation is good for you,
when you laugh,
your body makes endorphins.

Those are natural happiness substances.

Well, after 21 days of daily watching comedy,
you will have formed a new habit.

So watch Comedy every day.

You can watch a lot of standup comedy on Youtube for free.

Simple?

Sure, but you have to do it,
every day,
until you don't have to think about it anymore,
and you start doing it automatically.

Chapter II

Some Happiness Ingredients in a row:

- Watch comedy every day, at least one hour.
- Eat ice cream, treat someone with an ice cream.
- Work out, throw out your frustration by playing tennis
or go for a run.

- Pee in the yard
(and if you get a fine for urinating, laugh your ass off)
- Do not worry, life is too short for that
(by staying busy, you do not have time to worry)
- Hug the people that you love
- Go enjoy a cup of coffee or tea
- Buy or save a cat or some other pet

- When you receive money, immediately save a part of it

- Don't let the media scare you,
the world is not getting worse, the world is getting better.

- Sex, need I say more
(when you have sex your body also produces endorphins =
those natural happiness substances)

Maybe the Recipe for Happiness
is different than you had expected....

But that doesn't matter,
the point is that it works &
that it will help you to live happier.

Do it,
it is easier
then looking with a sour face.

Note from the author

If you liked this book & got some value from it.

Would you then be so kind,
please,
to recommend it
to the people that you know.
So that they too can enjoy it
and live happier.

Thank you very much.

It was my pleasure to write and translate
this book (my third one) for you.
I hope it helps you to live happier.
(I know it will, if you do the things it teaches)

And I hope, that we can together make a contribution
to more happiness in the world.

We can.
If you recommend this book
and share it.
Then I will promote it.

And together we will make a contribution to
a happier world.

I would appreciate it if you would write a short review
about my book and send it to me.
Thank you for your effort.

Kind regards,

Jasmin Hajro

P.S. Obviously the whole point of this book,
is to make you laugh at my ridiculous moments.
If you have experienced some embarrassing moments,
don't worry...They won't top mine.

Ok, there you go...
you have read 10 books of my first series,
you are Victorious.

As a thank you and
as a gift I have included
another book...
just for you..

Because we all experience
some tough times
sooner or later
and I would like to help you
to overcome them
and to emerge
Victorious..

You can read book
Overcoming tough times
on the following pages

Book Overcoming tough times

What are tough times?
Isn't that different for everyone?

Perhaps something like tiring times.

Times that make you tired.

I worked in a tapas restaurant in Arnhem,
called Ramblas.

The food was delicious,
but I wanted to do something else,
then work in the dishes and the kitchen.

I started a home study for Wft basic Advisor,
when I worked in that restaurant.

In the evening at home I heard that my uncle Ibro,
who lives in Bosnia, had died.

Things were finally going the right way.

I finally had work and earned money,
could pay my bills.

And reduce my debts.

Well then that bad news came.

It was as if all energy went out of me.

I have very happy memories of
my childhood in Bosnia.

My family is part of my happy memories.

Someone once asked me what I was missing?
Because I had almost no contact with my uncle.

Apparently, those things go like that,
contacts & connections fade
Especially if you live far away from each other.

What I missed was his humor,
it always feels good and joyous when I was there.
And going to Bosnia on vacation is no longer
the same, because the people you go for
no longer exist.

I have thought about it...
Because I have already written 11 books.
The one you are reading now is the first part of my new series:
Work to shine.

What kind of book would be good for many people?
What kind of book would be helpful to many people?

What should be in it, what would it have to give to readers?

Even if it is only recognition,
periods I went through &
that they are going through.
That they can relate to.
To know that you can get through anything.
No matter how painful it is
and no matter how bad it seems, at the moment.

Or comfort.

Maybe relativation,
to attenuate their troubles and their situation &
see them in the right perspective.
They're just like a threshold on the road,
that you really will get over.

To be honest, I do not want to write this book.
I do not feel like writing it.
I really had to force myself ,
to sit down &
start writing.

It is Sunday for God's sake.
July 1st
A new month started,
it is beautiful sunny weather outside.

I got up before noon, for once.

Yeah, for some miraculous reasons,
I am almost 33 years old and I still struggle
to get up in the morning on time.

So what does this Workaholic do?
On such a nice Sunday?

Starting on a new book series &
writing a book that he actually does not want to write.

Well if you've read my book Victory,

then you know that one time in Bosnia
when I was a little boy
I had to sit nude in front of the house. As a punishment.

Because of those kind of fokking things,
I did not really want to write this book.

Anyway,
I have already started

So what's in it for you, to know what kind of
extreme punishment I received?

Well, whatever is bothering you,
no matter what kind of tough time you're going through now.
Ans no matter how difficult it may be for you ...

You will never have to sit naked in front of your house,
as a punishment.

You see,
your situation is not that bad.

(That is relativizing, that is to say
relativation or taking the edge off it)

Perhaps there is a better translation ?

But you know what I meant, right ?

Let's go back to Uncle Ibro for a moment,
he left behind a wife and two daughters.

I'm just very sorry that I did not do something for him,
when it was still possible.

I live in a country where I have much more possibilities,
then they have in Bosnia.

I would have liked to send him money every month
And have visited them every year,
or a number of times a year.
Sent them gifts and spent more time with them.

I would have liked him to get to know my great company
& to show him my 11 books which are for sale in 190 countries worldwide...
And the good foundation that I founded.

But that is not possible anymore,
Uncle Ibro is deceased

People of gold

For me that was Grandpa Vejsil and Grandma Ziba.
They too lived in Bosnia.
Grandma and step grandpa actually.

Maybe because they have more experience with parenting,
then my parents.
Or because I never got a beating from them.

It was always great fun with grandpa and grandma.

A lot thanks to her

My father's oldest sister, Aunt Rahima.

Thanks to her, we were able to go to the Netherlands.

To get away from the war.

I owe a lot to her.

In a short period of time

In the period of time, that Uncle Ibro died,
I went to work

& then back home again.

I had enough of it
and I left.

In that period,
that lasted perhaps a half year or 1 year.

Aunt Rahima died of cancer,
Grandma Ziba died.

I went to Bosnia and there
I have carried her coffin for a while.

There was a long line of people and the coffin was passed on.
All the way to the grave.

We had a friend of my mother
in our neighborhood: called Ria.

She drank a little too much and had
a strange fear : she was afraid to walk up the stairs.

It was nice with her, when she came to visit.

She also died of cancer.

In that short period of time.

And then I heard that Grandpa Vejsil
also had died.

A while before, grandmother and grandmother had already split up.

But still.

That was 5 people in a short period of time.

At that time we received many letters from collection agencies
and bailiffs.

Our bills that they doubled the amounts that we had to pay
and that was all according to the law.

Yah Yah.

They are legitimate thieves.

So I was very angry and sad then.

Very very angry. Warlike angry.

And sad.

As you understand,
I would have liked to have done something more for them.
Spent more time with them.
Have given them more.

And I would loved to show them,
how far I have come.

From being 1 night homeless,
to writing 11 books & publishing them in 190 countries worldwide
Plus a good foundation &
a company with 16 subsidiaries.

But now it's too late for that.
They are dead.

I stopped using drugs,
after I had taken too much,
and ended up in a coma.

Well if you use yourself or know someone who does that ..
And if you see it as a waste of potential &
want to be clean
or help someone else to become it.

Then it might be good to know,
what I did afterwards.

That was just as important.

I decided, of course, not to do it anymore.
I could not do it anymore.
I think I got an anxiety attack,
when I tried to smoke a blunt.
Because I was shaking,
and wondered if I was going to get a heart attack.

What I did after ...

No more buying that stuff.
Stopped dealing with people who use it.
Yes, I was at home a lot and it was shitty,
but it was better.

I started to become more fanatic with my chess hobby
and kept myself busy with it.

I went for walks.

I thought of people who used as LOSERS

I once collapsed and fell to the ground,
and after that I stopped drinking
alcohol.

What I did after ...
Was not going to the pub anymore.
Didn't go out to clubs anymore.
Drank a lot of tea and coffee.

Went hiking.
I read.
Listened to audiobooks and watched motivational videos
on youtube.

I wrote.

I didn't go anymore to places and people
where alcohol was consumed.

Yes I was a lot of times at home, like a hermit.

But it was better.

Bills and debts

See bills and debts not like a burden,
but as responsibilities.

And people who still have to receive money from you,
are people who trusted you
or have faith in you.

And for that kind of people you are going to make things right.
No matter how much time it takes you.

Put all your bills in 1 folder and put that thing out of sight,
in a drawer or something.

Emplane some cash money around you in your house.

And focus on earning money,
stash money,
and take care of your responsibilities.

Aging sucks

It sucks, right?

Every year, you become a year older.

I thought so too.
And I especially disliked to become 30 years old.
Because I had heard or thought
that after your thirtieth year
you start to decline.
That everything is going to decay and won't function well.

And I thought about, when I become 80 years old,
and nothing functions anymore
to kill myself one way or another.

Until someone said:
The older you get the better it is

And that is the mighty fokking truth,
as far as aging is concerned.

Some children do not even become 10 years old.

Some people don't even become 18 years old.

But you are 30 or 40 or 50 years and having another birthday
& you can live for another year.

How a great gift is that ...
You can do and experience so much. And enjoy.
Be happy
The older you get, the better it is.

The Better thing

Failing and falling on your face is good for you.
And also is rejection.

Because then the Better thing comes on your path.

I had a solution for the banks,
neatly typed out and ready.
They did not want it.

A while after that,
out of my solution I made a book.
book the Lifebuoy for banks
" loyal banking "
(de Reddingsboei voor banken"loyaal bankieren")
The Better thing

I applied for a social welfare for the 2nd time.

It was rejected.

I walked home,
and then wrote my 3rd book:
book Recipe for Happiness
the Better thing

That is how it will work out for you too.
Do not despair. Work towards your goals and dreams.
The Better thing is coming

a Doing book

Well, as you might already know in the meantime
I write short books.

And Non fiction.
Simply facts and life experiences.

With often things in them that you can do,
or must do.
Actions you can perform,
so that you get results.

You probably already understand that by just
thinking about 10 euros/dollars,
the 10 dollar will not manifest in your pocket.

But if you do something.
Like working for a while.
Then you will receive the 10 dollar.

I would love to recommend to you
my book Recipe for Happiness
(Also a Doing book)

It contains tips and advice that you can easily do &
that help you to have less stress.
To be happier and healthier.

And also help you a bit to overcome difficult times.

Count on one hand

That night on the street is actually the best thing
that has happened to me.

It has put pepper in my ass,
to go to work hard.
And to get more out of myself.

It has also taught me,
that very few people are always there for you.
You can count them on one hand.

Whatever you did,
and however you have behaved.
They are still there for you.

These rare few could be your mom and dad.

Thank them,
appreciate them.

Make some sunshine for them &
make them proud.

Well you now also know with which people you should
spend your time. And not with others.

And that

What I did after I stopped taking drugs and drinking alcohol
was also ...
Working

They were not always the nicest jobs.

But work has really changed my life.

That it will do for you too.

Work is your best friend,
you can always count on it.
You can always 'borrow' money from that friend
after you have worked.

Quote : " Work is the best therapy."
By Doctor Maxwell Maltz

So if you don't believe me, believe the doctor.

Those meager months

And what about those months when you only
earned a few bucks?

I will become a millionaire or die working towards it.

So about really fokking great.

My Victorious series of 10 books &
Another one,
show you:

That if you really want something,
then you can do it too.

No matter what & Whatever they say.

That obvious recipe

It goes something like this:

Write down what you want to achieve in life

Learn, Work & Persist until you realize it

About the same process as getting your driver's license.

Or cooking a meal.

Or getting your diploma.

Or writing a booklet.

Save a part of your money &
donate something to charities.

Keep reading, listening to audiobooks
and developing yourself. Keep growing.

Learn the 80/20 principle,
so that you will only do the most important things,
that give you the most results.

Then you will feel better about yourself &
that also helps you
get thru tough times.

Learn that it does not matter what people say

To achieve the things you want in your life,
the only thing that matters is : what you think and what you DO

If you experience this as a valuable book,
would you please be so kind
to recommend it
to the people that you know.

So that it helps them too with overcoming tough times.

Thank you.

Extra page

After failing with my first company.

I founded a new and better one.

After my burnout, that cost me 2 months of time

I picked myself up, and became active again.

I started working (selling), writing, jogging
and kept going again.

If I can recover & overcome, so can You.

You are designed tougher than
tough times.

I wish for you a lot of strenght &
the best things in life.
