Hey Hello

how is it going ?

Thank you for venturing out for the first time  
to one of my books...

Or several times...

Well yeah,

It wasn't really going to happen...

This book..

You know.

It's such a loaded topic...

Well

Today I went to work...

I started a little late

and it snowed...

I made 4 sales

3 sets of UNIQUE greeting cards

and 1 gift cup

sold.

Unique indeed.

I finally have them.

Fortunately, people are happy with it,  
because they buy them.

Have already sold more than 10 sets  
and I'm only busy for a few days,  
a few hours a day.

In any case, I'm very happy with it.

Because we have a Unique product.

I've always worked on it

to make Hajro company different and unique.

And a unique product helps enormously with that.

The past few days have been a bit strange.  
I think someone sprayed something in my eyes  
because I couldn't see well the other day.  
Maybe I'll get diabetes...  
I also became a number of times  
static awake,  
it looked like someone had tasered me.  
Unfortunately, just after the greeting cards were delivered,  
someone stole 1 box.  
The one with the red letters,  
which says congratulations.  
I reported it to the police this afternoon.  
I don't want to bore you with my "troubles"  
but I always bring you the truth,  
the facts and reality.  
And that was going on, so there you have it.  
I now have 2 security cameras...  
So next time, I know who it was.  
I ordered them through Interpolis  
and pay 14.99 euros each, per month  
I recommend you order them too.  
At the end of the evening,  
I was invited to come in for a moment  
at a customer's house...  
Because it was snowing and cold.  
So they bought 1 set of greeting cards and 1 gift cup..  
And they had bought greeting cards last time too.  
1 or 2 years ago.  
Had tea and talked a bit.  
Gave some encouragement to that lady  
to just start writing  
of her book  
and books.  
So who knows.  
Hopefully she does.  
According to Brian Tracy

that is the difference between successful and failing people.

Successful ones take action and do it.

Just start.

And failures make up reasons not to start it.

Watch TV or use Facebook.

And from that delay comes more delay (procrastination)

They'll do it some other time, but that time won't come.

Okay,

so that's how it went

and I said I wanted to write another book about uniting,

unify

in other words bring together the people.

And she said: just do it

Which is also my advice.

So voila,

I started it

and you are reading it...

Something that connects people...

And doesn't

distances them from each other.

As is done...

by messages about

how different people and cultures are.

And how my God is better than your God etcetera etcetera etcetera

I guess it's just a business

if you go through the media

alienates people from each other

Because how else can you get them to do that?

that they will go to war with each other?

So you

can make a lot of money  
via the arms trade.  
Because both sides will need weapons.  
So this booklet  
then teaches  
Unite people  
or uniting people.  
And yes

I've been listening to Bob Marley a bit more lately  
listened to music  
and am influenced by the songs of Love.

I have a moment now  
Roots, rock, reggae set up  
by Bob Marley  
Delicious.

I love it.

Play some music  
this reggae music  
Feel like dancing...  
Come dance with me

Ok now back to  
the peace ..

Is it weird?

to write a new faith, so to speak  
to design?

To invent...

(the peace religion)

Maybe a little..

Who knows....

Well,

So I was raised as a Muslim,  
as you know  
and as a child I went to the mosque.

As an adult boy

I have only been to the mosque a few times &  
also went to church a few times.

Of course,  
just go to church as a Muslim.  
And as a teenager I also talked a few times  
with some Jehovah's and,  
very short,  
so I went for a short while  
to such a religious discussion group...  
I believe that is Christian.  
I mainly believe in the Universal Intelligence...  
what some people call God.  
So I believe in my own way,  
a bit differently.  
That's why it's a bit weird  
so strange  
to write a book  
about a faith.  
But who knows..  
Who knows, it might turn out to be a good book  
And a good faith  
And I find some believers  
and they spread the good word further  
and it becomes a movement  
or something ...  
However..  
I better have written it,  
before I die  
However?  
So before I die,  
what could be soon  
or tomorrow.  
Who knows  
when...  
Then I better do it  
having done as many things as possible  
that I wanted to do...  
and as many ideas as possible

realized  
and made something out of my life.  
So that it's not just thoughts and  
ideas , and inspiration remain  
but become something tangible.  
Like this book.  
Oh yeah  
There may be some pelling mistakes in this book,  
(spelling mistakes)  
like you might  
you're used to from me  
meanwhile.  
And I still don't know how to do those dots  
on top of certain words  
as in the word: ideas  
and I still don't know how  
makes an umlaut  
I think those are 2 of those lines above one  
word like: at all.  
Go figure  
22 books later...  
still no umlaut and dots  
on top of certain words.  
Anyway,  
as Lee Milteer says:  
good enough is good enough.  
So let's move on....  
It is now 11:52 PM  
OK  
I am back again  
I got my nicotine inside my body by smoking tabacco  
Maybe you're thinking...  
that you might spell that way  
and...  
that anyone can write a book this way  
filled with what your days were like, a smoke break

and some things that you do, that you have done  
and an idea...  
Yes of course  
you should too  
I recommend it  
to do it  
and I recommend everyone to do it  
and then do it again  
and then do it again  
and again  
so you can have your own Series of books  
written.  
And then to publish them through Kobo.com  
so they are for sale in 190 countries worldwide  
Just roll up your sleeves and...  
start writing...  
In short:  
just do it.  
I have little to do with politics...  
I didn't vote  
because I hadn't looked into it enough  
to make a good choice.  
And I have little interest in it.  
Not because the world or the country doesn't interest me much  
or the people.  
That all concerns me...  
According to Brian Tracy  
politicians means  
in some language or translation  
ferocious bloodsuckers  
Who knows.  
And I don't watch the news either  
the news on TV  
I don't read newspapers these days either  
because I want to be and stay focused and productive.  
Grant Cardone says:

you don't watch the news,  
you make the news  
You don't read newspapers,  
you write news paper articles.  
So I made my first newspaper.  
I didn't call it Bullshit,  
like I used to want to do.  
But just  
Your Newspaper  
The newspaper with positive news.  
(Even though that is not newsworthy according to some people and their  
opinions about it)  
Nice and interesting  
what they think about it.  
Everyone loves good news...  
Small example: You receive a letter and it says:  
This year you will receive 500 euros back from the tax authorities  
That makes everyone happy...  
People often talk out of their asses  
talking out of their asses and  
not out of their minds.  
Except that it seems fun for my customers  
having my first newspaper  
there is also another reason...  
Namely that advertising is expensive.  
An article on 1 quarter of 1 page  
was something like 80 euros.  
And you would do that every month  
or have to repeat weekly,  
if you want it to stand out,  
getting it read  
and you get a response from it.  
I can with my own newspaper  
easily become front page news.  
I ordered 10,000 copies of it  
and after some fuss about dimensions and color...

I just had it printed  
as a folder  
Colors in my corporate identity  
Brown and white colors...  
Good enough is good enough.  
I don't care much for the news  
because of the lies.  
I noticed 3 times that someone was lying  
and when you lie on TV  
then you lie to millions of people.

#1

Today before I went to work  
I heard it said on TV:  
Everyone will gain a few tens of euros.  
Seems like good news...  
But everything is getting more expensive!  
So you used to buy groceries for 1 week  
for 100 euros.  
And now I'm getting a few bucks more...  
And everything becomes more expensive.  
So you now have 120 euros.  
You've improved by those few tens  
And you buy groceries for 1 week  
for 105 euros  
And you buy every week  
groceries for the whole week  
for 105 euros each time  
that you buy groceries.  
So in 1 month,  
after buying groceries 4 times  
you spent 420 euros  
First it was 100 euros a week,  
so 400 euros per month.  
But you have made a few tens of increase in buying power.  
So after your shopping you would have 20 euros left  
BUT

Do you see how big it is?  
Everything has become more expensive.  
So what you could buy in groceries for 100 euros  
now costs you 105 euros  
Because everything has become more expensive.  
So after you have improved a few tens of euros  
AND everything has become more expensive  
Are you willing to buy the same amount of groceries per month that used to  
cost you 400 per month?  
nowadays  
costs the same amount of groceries  
per month you 420 euros  
or 450 euros if you buy more than a few tens  
All prices have risen and your purchasing power is the same,  
it stayed the same.  
You can now use your extra tenners  
to buy as much as before  
without those extra tenners.  
So you haven't improved ANYTHING.  
But we are improving by a few tens  
hurray  
Everyone will gain a few tens of euros  
Bullshit  
#2  
It was widely reported on the news  
that someone  
a suspect probably  
in court  
had thrown a chair at the judge  
Big, sensational news.  
You saw a video that showed nothing,  
you just heard something hitting a wall.  
There is a big difference between them,  
a chair thrown against the wall  
in court  
&

a chair thrown against a judge  
in court.  
Following me you also saw the chair go against the wall.  
I can't remember the image very well anymore.  
But that I remembered  
the incident so well  
because that's what I thought then  
There's something wrong.  
Bullshit.

#3

I delivered newspapers in the morning  
when I had my first business  
and front page news  
and widely reported  
in all newspapers and media  
An attempt on the queen  
but not an ordinary attack...  
A terrorist attack  
to our queen...  
So what happened  
she was on one of those double-decker buses  
of those buses with 2 floors  
that they have in England  
from that red one...  
And she was on the 2nd floor  
on that bus.  
And someone ran over some people,  
drove towards that double-decker bus with the queen in it,  
and crashed into a planter.  
So if he had driven on...  
he would pass through the first floor of that double-decker bus  
just driven through it  
And the queen  
would have felt the breeze and some turbulence...  
Only that !  
But it was told

so lied....  
about a national terrorist attack.  
Bullshit.  
Do you know how a terrorist attack would go?  
Terrorist Achemd the dead terrorist calls  
with Hassan the dead terrorist  
A; Is the Queen of the Netherlands in the city of Alkmaar?  
H: Right  
A: heavy bomb from a jet plane becomes  
dropped above the city of Alkmaar  
and the entire city of Alkmaar was wiped out  
in a few seconds  
The entire city of Alkmaar has been wiped off the Dutch map.  
Do you see the difference ????  
Well, I'm just joking about it  
because you know Achmed the dead terrorist from that one  
ventriloquist comedian.  
But now you do understand the difference between a terrorist  
attack and  
a lie.  
So....  
And then there's something else...  
All the news on TV (the journal)  
and on the radio  
it comes down a bit to the following:  
Monday, the world is ending  
Tuesday, the world is ending  
Wednesday, crisis and the world is ending  
Thursday, the world is ending  
Friday, epidemic and the world is ending  
Saturday, the world is ending  
Sunday, day of god and rest & the world is ending.  
This is very simplistic,  
but that's what it comes down to  
always the same  
3 times a day.

And because I often work on  
almost every day of the week  
and positive  
and with a good attitude  
and enthusiastic  
supposed to sell (do my job)  
how can I suffer that shit  
in my mind .  
I can not bear.  
And somehow I think it is a little bit  
just propaganda  
making you feel stressed and anxious  
and after a good dose of anxiety and stress...  
after many years  
it makes you depressed  
and mentally programmed that the world is a bad place  
and a lot of people are bad  
and you can't trust anyone.  
And you become severely depressed and feel bad  
So you start buying anti-depressants.  
Billions are made from this  
It looks like psychological advertising for depression tablets..  
Well I can hopefully disprove some of that bullshit  
debunk.  
Overthrow...  
Look around you ...  
Most people work  
for a good company  
5 days a week.  
And socialize on their weekends, visit family and  
friends. Go out to eat and have outings.  
Devoted time to their family, hobbies, etc  
Much of the rest then lives from the municipality  
and is looking for work. Regularly have temporary work.  
In addition, they do about the same as the working ones  
group of the population. Spend time on themselves,

their family, their relatives, their friends, their sports,  
their hobbies and volunteer work etc.

They also enjoy their weekends.

Then there are the group of the population who are children,  
under 18 years old. Most of them go to school,  
5 days a week. And they also enjoy their weekends.

Then you have a group of retired people,  
many of them need help with daily and normal things  
such as grocery shopping and cleaning the house and  
the administration.

And the other part of the pensioners who live,  
have normal activities,  
their family, friends, old people clubs,  
hobbies etc.

Who does all those bad things,  
which must be repeated more than 3 times daily  
and have to be shoved down your throat,  
so that it makes you depressed and  
you hardly trust anyone anymore.

While 99% of the population  
works and lives normally.

And why would you love to make such a small group of criminals  
front page news? 3 times a day ?

And only talk about their bad deeds?

More than 3 times a day?

And while that is being propagated,  
continue...

One wonders why the youth,  
start acting more like assholes?

Because....

because they are like any other child...  
they copy behavior they see.

And if they continue  
seeing bad behavior,

they will imitate that too.

Why isn't Donald Trump front page news every day?

Someone who has worked and with his work  
has made him self a success.  
And has earned a lot, which is good for his family and  
wife and his family are taken care of.  
And I'm not talking about the so-called news,  
those strange news reports  
calling him an idiot  
a crazy fool.  
As he says himself: Fake news  
But normal news  
with good stuff  
healthy facts  
about someone who is a good example  
for us and the youth.  
And why are entrepreneurs  
who start businesses,  
give people work,  
pay taxes,  
donate a lot to charities  
to associations and sports clubs...  
why aren't they news  
3 times a day  
on TV and radio.??  
They deserve that & they are good examples  
for us  
and for the youth.  
And with plenty of that kind  
good and factual news,  
that is given to the youth  
imprinted.  
Then they start to imitate that behavior.  
Even though children get all that misery  
unconsciously,  
it can still lead to psychological problems  
and wrong behavior.  
So that's why

Your Newspaper  
with some good news.  
And oh yes.....  
Don't give me the excuse  
because then I immediately shout:  
Bullshit  
don't talk out of your ass  
and have your brain checked.  
If we don't make criminals with that propaganda  
create.....,  
then the police  
has nothing to do .  
Millions of unemployed police officers.  
What then ?  
Okay Okay  
In that case,  
they all go gardening.  
Your bullshit solved.  
Build all kinds of parks and gardens  
organic houses and organic garden houses  
and planters and flower boxes  
and vegetable gardens  
and garden parks and nature parks.  
Throughout the country.  
And then they will maintain it and  
creating winter gardens and winter parks  
and indoor gardens  
and constructing and maintaining indoor parks.  
And so they all keep working  
and do you need more?  
Nature is preserved  
and the air much fresher.  
the so called problem (excuse) is solved...  
And they all keep working.  
So your excuse isn't going to work  
Because your excuse is:

you guessed it

BULLSHIT

And then people just have peace,  
because the youth behaves healthily.

One for those 1% who continue to act criminal,  
a straitjacket awaits  
in an institution  
in the desert.

In the middle of the desert.

Well isolated  
of the normal working and tax-paying population.  
Finished.

And we would talk about faith  
religion  
and the religion of Peace  
but yeah..

sometimes things need to be said.

And you probably understand why I don't appear on TV  
or will come on it.

It's also not necessary.

If we're talking about something that people  
can achieve and grow into  
something bigger  
like a movement

movement or something like that.

Then I would actually prefer that my company  
Hajro

grows out  
to a global and national one  
movement.

With many sellers becoming franchisees.

Salespeople are good for the economy,  
even though some people act like shit.

Seller sells something,  
company makes a profit  
company pays taxes

company pays employees  
employees pay taxes  
civil servants get paid for doing things very slowly  
their work.

Money goes to social services  
such as police, fire department, hospitals,  
government provides subsidies  
for infrastructure construction,  
subsidies for charities.

If the seller sells more,  
then can the company give raises,  
more tax is paid,  
more money for facilities  
etc

Better for everyone.

Oh yeah,  
so you can become a Hajro franchiser  
if you have experience in sales.

I've been up all night  
and created some different websites

Dan S. Kennedy recommends it  
to have different business in your business  
for different markets (different people)  
so you have a complicated business.

So now I have

the beginning of it anyway.  
Then we can do it with thousands of people  
to sell,  
give people work,  
Support charities  
and helping people live richer lives.  
And do many more good things.  
So if you have experience in selling  
and want work for the rest of your life  
become a Hajro franchisee.  
And no  
you don't need half a grand  
or 50,000 euros to invest  
to get started  
plus one every month and every year  
pay a pricey service fee.  
So that we can always continue to earn from you,  
whether you do it right or not  
and whether or not you earn anything.  
No, I'm not like that and neither is Hajro.  
You will receive yours for a reasonable investment amount  
starter package and you can get started.  
You will receive, among other things  
3000 sets of unique greeting cards.  
After you sell it,  
you have earned 15,000 euros.  
Then you will have more than recouped your investment.  
You only have to do one thing:  
grab your bag and talk to people.  
So tell your sales presentation  
to 100 people or more  
a day.  
Most of it has already been done for you,  
you don't have to create websites,  
or create products,  
or make flyers.

You only have to do one thing.  
Grab a bag full of packages greeting cards and sell it.

There are only 2 important conditions:

1. You only order products through the head office  
from Hajro. (at a competitive rate of course)

You don't abuse this opportunity,  
By using Hajro as a cover  
for criminal activities  
such as fraud or drug trafficking.

If you do, your agreement will be terminated,  
and you will be reported to the police.

But we are also just looking for  
people who want to earn honest money,  
and therefore adhere to the conditions.

And just be enthusiastic  
with such an opportunity  
to start selling with a unique product,  
on behalf of a company  
with a good reputation.

Hajro has also started with such an opportunity...

Someone who couldn't find work  
after many applications  
and after personally visiting many companies  
with his resume.

He then got a chance  
to start selling greeting cards...

And after some sales training  
he went on his own  
on the road

with the pitch (the sales presentation) in hand,  
on a piece of paper with him.

Spoke to some people  
and yes

sold his first set of greeting cards  
a number of streets away  
from his own house.

And then sold more and more sets of greeting cards.

You probably know that guy,  
you are now reading his book.

We are now giving such an opportunity  
to other people.

Only everything is a little better now  
than when I started.

The company Hajro is better now,  
with, for example, unique greeting cards.

And an open company  
with published bank statements  
that everyone can see  
that Hajro does what he says,  
you see that staff are paid compensation,  
you see that donations are made monthly  
to sports clubs, associations and  
to Charities.

And if things don't go well with the greeting cards...

Then people will ALWAYS stay  
drink their coffee and tea from a mug,  
that's why we have gift mugs.

So you are in the right place with Hajro, as a customer and as a franchisee!

It's already 2am...

I have to pee

and this book is supposed to be about religion.....

a new faith that unites people...

Ok I took another pee break  
had a smoke and a cup of tea.

What is the faith of Peace?

What is the Peace Religion?

What do we believe in?

And who is it for?

We believe in the Universal Intelligence...

The religion of Peace is for everyone

Of course, we also believe in Peace

What is Intelligence

that we believe in?  
Have you noticed that there are seas full of water?  
And that there are also rivers full of water?  
And that it rains regularly?  
That no matter how much water we drink  
with more than 7 billion people  
on the planet...  
There is always more than enough water  
for everyone..

Chance ? Randomness ?  
Have you noticed that there are plenty of spices  
and edible plants  
vegetables,  
that there are enough fruits and vegetables and  
enough spices.  
How much fruit, vegetables and herbs we  
eat too  
with 7 billion people  
on this planet...  
That there is enough fruit, vegetables and herbs  
For everyone.

Chance ?  
Do you know the movie: Genius Club? I recommend you check it out...

Below is an excerpt from the film...  
""Do you know that the earth is exactly  
enough close to the sun  
stands so that it warms the earth  
but not that close  
that everything on earth burns up."

Chance ? Randomness ?  
""Do you know that the earth is exactly  
far enough away from the sun  
so that it warms the earth  
but not that far from Earth  
so that everything freezes.  
Exactly right

And even though they revolve around each other.  
They stay just the right distance from  
each other.

So that life is possible on earth.

Chance ?

Do you know that there are enough chickens,  
pigs and cows  
on earth....

And even though we eat  
so much chicken meat,  
pork  
and beef

as much as we can  
along with more than 7 billion  
people...

And that still enough  
chickens, cattle and pigs  
and therefore enough chicken meat,  
enough beef  
and plenty of pork  
remain

so that everyone  
can eat enough of it.

There's more than enough of it...

Chance ?

And then there are also plenty of single men  
for women looking for a man.

And there are plenty of single women  
for men looking for a woman.

And then there are also plenty of people who are attracted to the same sex  
for people who are looking for someone who likes the same sex.

A world full.

Chance ?

And then there are plenty of schools and courses and books  
for people who want to learn.

And then there is enough money for people who want to work for it and put  
in the effort.

And there is enough oxygen for everyone.

Chance ?

Randomness?

Or divine design and divine planning....

And there are plenty of companies  
and companies being started  
for anyone who wants to work and  
who wants to start his own business.  
Plenty of places to visit and see  
for people who want to travel.

Chance ?

In short

a world full of abundance  
we live in a world full of abundance

Chance ?

Randomness?

Or divine design and divine planning....

And then this:

If 7 billion of everything in the world  
can be made,  
then there is one of everything  
for every person on earth.

But as you know, mass production can do much more than 1  
piece being made of anything.

And what about the seasons?

That the ground has enough heat,  
rain (water)  
gets rest and nutrition,  
so that he

can produce a beautiful harvest every year.

Enough grain,  
to make bread.

And no matter how much bread we eat  
with 7 billion people,

there is enough grain again  
enough bread.  
But....  
so there was a big bang  
the big Bang  
and then everything came into existence  
by chance, randomly  
and it developed further  
quite by accident  
And that is why everything is the way it is.  
By coincidence.  
Like just one of those things  
which I just mentioned to you  
wasn't there  
then we had  
**A BIG PROBLEM**  
not enough water,  
and many people die.  
For example.  
So we believe all that is  
Intelligently designed.  
And that there is enough of everything for everyone,  
thanks to an Intelligence  
who has provided everything.  
There are a lot of other things  
that belong,  
and which are Intelligently designed  
and fit intelligently into the bigger picture  
and are indispensable.  
The Intelligence of 1 person  
or more people wouldn't be enough.  
To design the world and everything in it  
in such an intelligent way  
so that life can go on forever.  
So we cannot see the Great Intelligence...  
but we know it's there.

Because of everything around us...  
What couldn't be possible,  
if only it were all there by chance.  
Things would be forgotten...  
And disasters would happen.  
Many lives  
and perhaps all of life  
would perish on this planet.  
Forget something like gravity,  
everything would float  
and life became very difficult.  
Forget fucking  
reproduction  
and life stops  
after the current generation  
is deceased.  
Forget grain or rice or potatoes.  
And you have a colossal problem.  
How about herbs where medicines  
are made of.  
Accidentally forgotten by creative chance  
and every flu becomes a death.  
and any other disease and infection  
also becomes a death.  
Or forget about the immune system  
and almost everything will kill you.  
Simply forgotten by creative chance  
of the accidental big bang.  
So we believe that there is an Intelligence everywhere  
sits behind  
who designed everything  
and created  
and helped develop further.  
An intelligence greater than that of humans.  
Could all the genius in the world  
create a flower, a rose

??

And we can not see the Great Intelligence  
but she is like the wind.

We're sure she's there.

Sometimes she speaks to us  
in our dreams

and in our inspiration.....

So believe then

believers of Peace religion believe  
in the Great Intelligence.

And if you are an atheist (someone who believes in nothing)  
and you become a Peace religion believer.

And you start to believe in the Great Intelligence

And you're going to die

and there appears to be nothing after your death?

So what !?

You're dead after all,  
what does it matter to you then?

Hello

Hello...

Okay

and the,

the

Peace religion

costs you

NOTHING !

That was always the weird thing  
that you gave some money to the mosque or to the church.

I said to my mother once

that god doesn't need money.

So we have the Peace religion

and it is free

Totally free ?

So I don't have to pay anything

and nothing to give?

So that the supreme chief

or whatever that guy's name is,  
can print flyers  
for the Peace religion  
and can rent a building  
for meetings  
and things like that.

No.

The Peace religion is free for you if you  
are a child,  
if you are a man,  
if you are a woman  
if you are gay,  
if you are a lesbian  
if you're straight,  
when you're old  
if you come from europe,  
if you are from Africa,  
if you are from New Zealand,  
if you come from Old Zeeland,  
even if you come from Zeeland,  
if you're from America,  
even if you come from the United States of America,  
if you are from Asia,  
if you're white,  
if you are black,  
if you are colored,  
if you are albino,  
if you are red,  
if you are yellow,  
if you have slit eyes,  
if you have one eye  
if you don't have one eye,  
whoever you are,  
whatever you are,  
no matter what you look like  
whatever you have

and whatever you don't have...  
The Peace religion is for you & is free.  
We believe alongside the Great Intelligence  
also in Peace..  
Just peace  
So we are peaceful  
and want you to become and be peaceful.  
Can't you deal with someone?  
then you distance yourself and  
look for others you can get along with.  
And I think in your heart...  
and a lot of people  
on the world in their hearts...  
just want peace.  
Just peace on earth,  
peace among all people.  
"Could you help me sing these songs of freedom"  
Bob Marley  
I'll probably get killed at some point.  
I don't mean it as a joke  
or maybe...  
I just think I'm saying and going to say some things  
those some people  
will cost money.  
And then they think,  
it would be better for the business,  
as Jasmin Hajro  
have an accident.  
So it is liquefied.  
But who knows,  
I probably haven't offended enough people yet  
or cost them enough money.  
I don't really believe in accidents  
I've never seen an accident in a small corner.  
I had a few strange falls and fell hard,  
probably because I was drugged.

If I had died,  
it would look like an accident.  
I also couldn't hear for a while  
and felt a stitch in the side of my head.  
Almost got hit while jogging  
by a white car that continued to drive fast.  
Could also have looked like an accident,  
but there was almost no traffic.  
I don't believe in suicides either.  
Strange, when I almost killed myself once,  
by using too many drugs.  
If something is reported about someone who is supposed to have killed  
himself  
I think first  
who gets the insurance money?  
I do not know why..  
There are maybe 0.00000001% of people  
or 0.00001% of the people  
who give up  
and kill themselves.  
For all other "suicides"  
I always wonder...  
who gets the insurance money  
which could easily be 100,000 euros or dollars  
or tons  
or 1 million  
or more  
or simply 30,000 euros  
and if you never had 30,000 euros,  
and don't know how you're going to earn it,  
but would like to have it...  
and there is someone ,the earth can do without  
according to you then...  
and that one was just an accident  
can get from a small corner....

.....

.....  
Who gets the insurance money??  
I then think and ask myself  
and I wonder ,first thing ...  
Well, I didn't mean to scare you...  
I just don't believe some things.  
As George Carlin says:  
I got this moron thing I do  
called thinking.  
Maybe I think a little differently  
and a bit radical...  
But that's okay  
You'd be bored anyway  
if everyone thought the same.  
And what do we want with the Peace religion?  
except winning souls  
for our business?  
The free thing  
of believing in the Great Intelligence  
and Peace.  
(If it's free it's not a business right? )  
What would the Great Intelligence want?  
The Great Intelligence designed the universe and  
designed us and our world,  
planet Earth  
also  
with everything in it and on it.  
And there's plenty of everything for everyone.  
And after we are born  
we are loving  
and happy inside  
and everything is an adventure...  
Life is exciting  
and wonderful.  
We feel love  
and are joyful.

We are happy to be alive...

And later as a toddler too

and as a toddler too

and as a child too...

We are still happy

lovingly,

honestly,

enthusiastic

happy.

And we treat other people with love...

Apparently we are designed and made

to be happy, loving, enthusiastic,

to be adventurous, honest, and happy.

And somewhere along the line...

we change...

In depressed people,

skeptical,

distrustful,

begrudgingly,

willing to hit other people

to hurt them,

some become resentful..

some become criminals...

What the fuck happened ????

After hearing enough bad things

and seen

through the news

the so-called news

through soaps

and movies

and other media channels

such as radio and newspapers

and in life

we start that wrong behavior

to do..

We see it every day and think it is normal.

So  
maybe it's time for that  
a positive newspaper  
and a new religion.  
So we believe  
as believers of the Peace religion  
in the Great Intelligence  
and in Peace  
And everyone is welcome  
to believe with us.  
And it costs you nothing.  
Because we want to unite people,  
unite, bring together.  
Even though we are different,  
we think differently,  
we look different  
We are all citizens of the world.  
All people.  
So no more war can be waged,  
because everyone is PEACEFUL  
and believes in peace  
and behaves peacefully.  
We pray in the following way:  
thanksgiving prayers.  
Prayers of thanks  
Just those kinds of prayers.  
We thank the Great Intelligence  
for what we are,  
for who we are,  
for what we can,  
and for what we have.  
The prayer of thanksgiving is the only prayer,  
because we have so much  
and there is plenty of everything for everyone.  
If we want something,  
then we work for that.

After we worked for it,  
and receive what we want,  
like money.  
Then we thank the Great Intelligence,  
that we can work  
and we give thanks for what we have  
deserved...  
And what about all those other religions?  
They just continue to exist....  
And we deal with it peacefully  
I think Wallace C. Wattles says it best:  
"God wants you to make the best out of yourself  
To enjoy good foods & wear beautiful clothes  
To enjoy divine harmonies  
To speak mighty truths  
To get rich  
So he can express himself better, through you"  
It's already 4 o'clock in the morning...  
So you are very welcome to  
the Peace religion  
where we believe in the Great Intelligence  
and in Peace  
and where everyone is welcome  
and you don't have to pay anything.  
And where we all pray  
to thank.  
And we don't hold official meetings.  
But just walking in nature....  
And thank the Great Intelligence  
for the beautiful nature  
with all the animals and plants  
trees and flowers.  
And it's okay to tell someone else  
about the Peace religion..  
But that's not necessary,  
and we never ask you for it either.

This book is about finished.  
Oh yes, of course there are miracles in the world  
of the Peace religion  
Every person is a miracle  
and so are you.  
Every living being is a miracle  
and so are you.  
I hope this book helps you,  
Don't just believe everything you hear on the radio  
and on TV.  
Even if it is presented as a so-called fact..  
Think.  
I hope you watch as little TV as possible  
life is short  
you have to make something of it  
and enjoy it.  
TV also keeps you poor..  
Because you spend all that TV watching time which results in nothing  
you could have made money in that time.  
I hope you listen to more positive messages  
and also reads positive things.  
You really don't have to look for negativity,  
it will come along naturally.  
A flat tire,  
an argument about nothing  
a fight about nothing, with someone frustrated for too long,  
too high a bill,  
someone from that 1% of criminals  
who steal your car or your wallet  
etc  
etc  
The shit will happen anyway..  
You don't have to go looking for it,  
or listening to negativity on a daily basis  
via audio or video.  
I hope this book gives you peace,

there really is enough of everything for everyone...  
I hope you continue to believe in what is in your heart:

peace is natural

and most people want peace.

And that you might start to believe in it a little bit  
the Great Intelligence and practice being grateful.

That you only pray out of gratitude  
just prayers of thanks.

Because as Wallace C. Wattles says:

"your prayers are answered when you work  
not when you talk"

Well, the rest is free  
and you may

but you don't have to tell anyone about it.

And you can always go for a walk in nature,  
even though there is snow  
like here now.

I love snow and when there is a thick layer of snow,  
everything seems so peaceful.

Well,

I wrote a book of about 70 pages.

Maybe that's fun for people  
who like many pages.

Hey

thank you so much for reading my work,

I hope the Peace religion  
brings you good things.

I hope you will give a rating  
to this book, with the Ebook version  
you can easily give a rating  
after you finish it.

A few stars would be nice,  
but only do that if you think it is a good book  
and thinks it will benefit other people.

You can also write a review  
just a few sentences

in which you talk  
How did you get this book?  
What use is this book for you?  
Why do you think it could help anyone?  
How did this book help you?  
Would you recommend it to other people?  
Is it different or unique?  
You can email me that to [j.hajro@hotmail.com](mailto:j.hajro@hotmail.com)  
Or if possible, put it in your rating/review.  
Thank you very much for your efforts.  
I would love it  
to keep in touch with my readers and fans  
so with you.  
Then you'll be the first to know  
when I release a new book  
or if there is a special promotion  
such as the Holidays in December  
when you bought a whole Bundle  
of 10 books  
for free...  
So you can always send me an email  
to [j.hajro@hotmail.com](mailto:j.hajro@hotmail.com)  
Thanks again for reading.  
I hope you enjoyed it  
and that it is of use to you.  
Kind regards,  
Jasmin Hajro
