april 2024 - present Copywriter (freelance on commission)
see client list at www.hajro.store/100x-copywriting

Motivation :

I have started to learn copywriting so that i could write more persuasive copy to sell more of my own books and products. But I soon learned that copywriting is much more than writing a page of copy. It is analyzing how a business gets attention and monetizes it.

Then making recommendations for improvement and also writing copy after market research...

It has become my passion to help people and their business with my service.

I offer to at least increase your profits by E 10,000,- euro extra a year with the same amount of your working hours. If I don't , my copywriting service is free of charge.

Please contact me by email or LinkedIn to get started.

Kind regards

Jasmin Hajro
