Hello

how are you doing ?

Are you curious about the secret to success ? Thank you for picking up one of mine books to read.

My name is Jasmin Hajro

I am a war refugee ,from Bosnia,

I live for the past 26 years in the Netherlands.

I am an business owner,

my company Hajro sells greetingcards and giftmugs ,door to door and the books that I have

written online. It donates to 2 charities in the Netherlands ( 2 that I have experience with and that are trusted.)

For more info please visit [www.hajro.eu](http://www.hajro.eu)

I have been writing for more than 10 years in journals, somewhere in 2016/2017 I decided to publish my writings and selfpublished my first book :

Build your fortune

Since then I have written and selfpublished more than 50 books, about 40 of them I have translated into english.

What defines me as an author , is that I talk from experience.

You can buy my books at [www.jasminhajro.com](http://www.jasminhajro.com)

and many other booksellers , like amazon, barnes and noble, kobo.com and others

This will probably be a short booklet,

something like a whitepaper and you will be disappointed.....

But you will learn the real secret to success....

I am taught, when talking about competitors, to remain positive, so other companies that also sell greeting cards, my competitors,

I am taught to say about them :  
good companies, with great  
products...

To just be respectful

The same is to other authors and their books...

But I cant do that in this case,

sorry.

Do you know the Secret ?

the book, the video.....

about the law of attraction

Do you know the book :

the Millionaire nextdoor

by T. Stanley and W. Danko

They have interviewed 500 millionaires...

Millionaires are successful people, don't you agree ?

On one of its pages it says (and I quote )

'About two thirds of us (millionaires) work between 45 and 55 hours per week !

Why ?

Why would they work that much ?

Are they all crazy ?

When by the Secret and the law of attraction...

... you can sit on your  
couch and visualize.... success  
and have it  
manifest ....  
right....

So what is the real secret to success, do you think ?

Apparently its in 45 to 55 hour workweeks, for many years

and after that Hard Work

comes Smart Work

and also

saving and investing

for many many years

There you have the real secret to success !

"Because when you work more than 40 hours a week, you have more money. Then you can save and invest more every month, and it will grow more rapidly. And you will become rich and stay successful."

So I have found the real secret to success in my study....

I have also found it in my experience....

I went to school for 4 years and after that took an exam and passed, then I got a diploma...  
It took 4 years of going to classes, doing homework, preparing, studying doing the work required....

From 2007 till 2012 I have worked in a restaurant in city Doetinchem,  
I started as a dishwasher and worked my way up to cook eventually I got compliments from the guests that ate there, the food that I had prepared, another example of real life success  
It just took many years of learning a skill (cooking) practicing the skill for many years and just working my ass off by working 50 hour work weeks and then I was successful.

I started my 2nd company : Hajro in 2015 for which I sell packages of greeting cards, door to door.  
In april 2022 I sold 305 packages which was 305 x 5 euro is E 1525 euro plus I got E 175 in bookroyalties That is a total of E 1700,- euro  
My living and business expenses were E 1600,-  
So I had left E 100,- euro to enjoy myself ...  
I had made my company successful after 6,5 years of working  
So I learned a skill (selling)  
I practiced the skill a lot many many years and then I became successful

Success is a result of learning a skill that pays money and then practicing the skill for many years then working your ass off practicing that skill and after about 7 years you can be successful.

So I have found the real secret to success in my experience and in my study.....

Mindset is presented as the new psychology to success...

But I made sales and earned money with a crappy mindset....

When i was stressed, hallucinating and deeply in debt...even when i didnt feel good because the night before i drank too much alcohol...  
Mindset doesnt matter, the secret to success is in the work...

Shiny objects are social media, people say, just post content, that doesnt work to sell my greeting cards, if You promote your posts paid, that is advertising and not just posting...  
Everything that is new and presented as a secret to success is most of the time a shiny object, because the real secret to success is in the work...

With the law of attraction, what actually happens is mouth to mouth advertising or word of mouth....

I wrote a book, someone buys it and loves it, he talks about it with Friends and family, they buy it and love it and talk about it with people they know ,those people buy too

Has the author attracted magically all those people ?

Of course not, what actually happened was word of mouth...

But they sold it as a magical law that brings You all the good things of life, because You think about them...in the secret..
